Be On the Alert! Danger is at Hand.
This has been a sickly season. The medical faculty prophesy evil in the future. They think pestilence is on the wing for America. Suppose this to be true, what is the best defense against it? REDOUBLED NERVOUS VIGOR.—This is the only protection against PANIC, as well as against the PRINCIPLE OF INFECTION. Why do not those who predict the epidemic propose an adequate preventive? There IS one; a tonic, nervine and alterative, competent to shield the system against the subtle elements of disease, whether they float hither on the winds from distant lands or rise like vapor from our own soil, or are incorporated with the universal fluid. This ONE PREVENTIVE, of which there is no duplicate among the compounds either of the Old World or the New, is
HOSTETTER'S STOMACH BITTERS.
Remember that it is a specific for all the complaints which lay the system open to visitations of deadly epidemics. If you are dyspeptic, it renews the vigor of your digestive powers, gives you appetite, and restores your cheerfulness. If you are nervous, it invigorates every fibre of your nervous system from the base of the brain, where it begins, to the extremities, where it terminates. If you are billious, it disciplines your unruly liver and brings the action of that organ into harmony with the laws of health. It is, in short, an invigorant and alterative so powerful that Nature, with Hostetter's Bitters for her ally, may bid defiance alike to native malaria and foreign infection. If this enemy we hear of, this disease which is desolating Europe, is really bound hitherward, it behooves the *prudent to put on their armor*, to clothe themselves with invulnerability as far as human means will premit, by preparing the system for resistance with this pure vegetable antidote.

Hostetter's Bitters
Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Market, near Fourth street.

ADDITIONAL EUROPEAN NEWS.

The Financial Panic Continues to Subside—War Question Unchanged—Probable European Congress—King of Prussia Gives Audience to the Protestant Consistory—The Cholera at Liverpool—Shipping Firms Conclude to take no more German Emigrants—Great Excitement in England Over the Bombardment of Valparaiso—Spaniards Denounced in Parliament—Nitro-Glycerine Explosion in Australia.

NEW YORK, May 28.—The following additional news is from the files of the City of Boston:

The monetary panic continues to subside.

Remarkable statements had been made in the House of Commons by Lord Redesdale, of the way in which the railway credits had been kept up.

There are more pacific rumors from Paris.

The chances of a European Congress are improving. It is asserted that Prussia and Italy have assented. The Austrian reply has not yet been received.

The London *Morning Star* of the 15th conspicuously announces that the English Government do not feel wholly discouraged as to the possibility of peace. On the contrary, the feeling which prevails is rather more hopeful than last week. There is a vague report from Florence that negotiations of the session of Venetia were proceeding, and that Italy had consented to wait twenty days for the result.

The Florence *Nazione* of the 15th states under reserve that a note had arrived from the French Government proposing a Congress. There were rumors at Vienna of negotiations to bring about a compromise between Austria and Prussia.

The King of Prussia recently gave audience to the General Superintendent and President of the Protestant Consistory, and replied to him: "I am especially glad of an opportunity of receiving, under the present circumstances, a representation of the national church. The period we are now passing through, is serious and decisive for the future of the country. I have only determined, after long and mature reflection, upon ordering the military preparations of my government. I do not desire war, and it is not our fault that the ally which made a campaign in common with Prussia two years ago now assumes hostile attitude. The mission of great German powers is to act in concert for the welfare of Germany. I have not provoked the existing complication, but there are circumstances in which peace cannot possibly be maintained. Neither I, nor any one, can desire peace at any price. I have full consciousness of my grave responsibility before God and the country, but I shall pursue with perfect confidence the way by which God is pleased to conduct me."

Paris evening journals of the 15th represent that a meeting took place on that day between Earl Cowley, M. Drouyn De L'Huys and Baron Budberg, with the object of bringing about a peaceful solution. The Vienna correspondent of the London *Times* says the armaments of Austria, in the course of a few weeks, will amount to 900,000 men in the field. Large bodies of troops had been sent from Vienna to the North, and strategic concentration of troops on the Prussian frontier had thereby commenced.

In the House of Lords, on the 15th, the Earl of Carnavo made inquiries as to cases of cholera at Hull and Liverpool. Earl Granville replied that a thorough system of quarantine could not be carried out in England, and the Government had given to the local authorities all the powers the law empowered them to give. The authorities at German ports had been warned that Liverpool shipping firms would take no more emigrants.

The news of the bombardment of Valparaiso produced intense excitement in England. The act of the Spaniards is denounced in Parliament, by the people and by the press. At an indignation in Liverpool, Commodore Rogers was formally thanked for his action.

The English papers report another explosion of nitro-glycerine in Sydney, Australia, on the fourth of March. Large stores were completely demolished. The noise of the explosion very much resembled the discharge of artillery, and a dense column of dust and rubbish ascended to the height of one hundred and fifty feet. The Collector of Customs at Sidney has been directed to communicate with the Board of Customs of England.

Mr. Gibson stated in the British House of Commons on the fourteenth instant, that the law gave no power to interfere in the shipment of these explosive oils, but that it was a matter worthy of consideration.

FROM WASHINGTON.

Another Caucus Upon Reconstruction—Rumors of Cabinet Changes—Another Plan of Reconstruction—Scant Supply of Cotton Suitable for American Consumption.

NEW YORK, May 28.—Specials the evening papers say the Republican Senators held another caucus this morning, and it is understood several substitutes were offered for the third section of the reconstruction plan, but nothing yet agreed to. They meet again this afternoon.

The rumors of Cabinet changes are premature, unless Secretary Harlan should tender his resignation, which would be accepted. The President is anxious to retain the present Cabinet until the work of reconstruction is completed by the admission of Southern Representatives.

Senator Stewart has another plan for Reconstruction, which he hopes will supercede the third section: First—General disfranchisement of the ringleaders of the rebellion. Second—Wherever, in any State, the elective franchise has been curtailed on account of race or color, or previous condition of servitude, no person who voluntarily aided the rebellion, shall be allowed to vote at any election, except on the question extending the right of suffrage, which shall be submitted to them; and whenever the aforesaid disfranchisement shall be removed, all rebels shall be restored to political rights, except as in the preceding section provided.

Leading cotton manufacturers represent to the Committee of Ways and Means that the supply of cotton suitable for American consumption is so small, that probably we shall be obliged to resort to the importation of the article before September next.

Washington specials all discuss the probabilities of changes in the Cabinet. Messrs. Seward and McCulloch are the only members of whom there is not some talk of change.

The report of the Bank Examiner to the Comptroller of the Currency reveals the fact that in five instances the Merchants' Bank had paid interests on deposits of Government money at the rate of four per cent. to third parties.

The President has nominated to the Senate, William Faxon, now Chief Clerk of the Navy Department, to be Assistant Secretary of the Navy, in place of Capt. Fox who has resigned. Captain Fox has been nominated as the additional Assistant Secretary of the Navy for the period of six months, under the law recently passed.

Presbyterian Assembly at St. Louis—Appeal Against the Kentucky Synod Considered—The Re-Union Committees Appointed.

ST. LOUIS, May 28.—The appeal and complaint of Robt. J. Breckenridge and others against the Synod of Kentucky has been before the Old School Assembly to-day. But little progress was made, the time being mainly occupied in deciding who are the real parties in the case, an effort having been made to couple the complaint of Mr. McMillen, against the same Synod, with that of Breckenridge. It was finally determined that Breckenridge and his associates were the proper complainants and the Synod of Kentucky the defendants.

Mr. Breckinridge made a strong speech against this decision; he wishing to reach the Presbytery and signers of the declaration and testimony, and try them, not cut them off by a resolution. He claimed that the new Presbyteries provided for would take all these rebels back again, which he objected to.

The following are the names of the Re-union Committees appointed by the Assemblies:

Old School—Drs. Krebs of New York, Beatty of Steubenville, Backus of Baltimore, Gurley of Washington, Monfort of Cincinnati, Howard of Pittsburgh, Schenck of Philadelphia, Reed of New Jersey, Brown of Chicago. Elders Ray of Indianapolis, McKnight of Pittsburgh, Galloway of Ohio, Clark of Detroit, Strong of St. Louis, Beatty of Kentucky.

New School—Drs. Brainard, of Philadelphia, Adams and Hatfield, of New York, Stearns, of Newark, N. J., Fowler, of Utica, N. Y., Shaw, of Rochester, Hitchcock, of Hudson, O., Patterson, of Chicago, Nelson, of St. Louis; Elders Lambert, of New York, Williams, of Pittsburgh, Allison, of Philadelphia, Hardy, of Cleveland, Steele, of Dayton, and Brown, of Chicago.

Indian Outbreak—Alliance Against the Whites Feared—Presence of More Troops Necessary.

WASHINGTON, May 28.—The Commissioner of Indian Affairs has a communication from the Superintendent, dated Lapose, Arizona, April 12th, of an outbreak between the whites and Indians on the Willows, on the road from Fort Majors to Prescott. A party of five white men prospecting had a camp there. While four of them were absent the Indians killed the other. A party of armed citizens immediately went out and killed nine Indians, among them the Chief of the Hualopers and several women and children. An alliance of the Indians against the whites is feared, owing to the insufficiency of troops stationed in that territory. He also remarks that the only safety for life and property on the river is the establishment of the Indians on the reservations, to accomplish which the presence of troops will be absolutely necessary.

Terrific Tornado at Honesdale, Pa.—Bridge Over the Lackawana Destroyed.

HONESDALE, PA., May 28.—A terrific tornado swept over the lower portion of this borough, late in the evening. The immense covered bridge spanning the Lackawana River at Sixth street was bodily lifted, a distance of six feet in the air, and fell into the river a mass of ruins. A boy who had just crossed the bridge was carried some fifty feet up the river. Several barns, outhouses, &c., were demolished. Trees and sticks of timber filled the air, flying like shingles. The course of the tornado was first from west to east. It then turned and went south, and veering again, finally took a north-easterly course. No lives were lost. Thermometer 70 degrees.

Mr. Morrell addressed the Senate in opposition to the bill.

At half-past one o'clock, on motion of Mr. Green, the Senate went into Executive session and soon after adjourned.

HOUSE.

Mr. Rice, of Maine, offered a resolution, which was adopted, requiring the Secretary of State to inform the House what progress has been made in completing the maps connected with the boundary survey under the treaty of Washington, with copies of the correspondence.

Mr. Perham, of Maine, offered a resolution, which was adopted, directing the Secretary of the Treasury to inform the House what amount of gold belonging to the United States has been sold under his authority since the first instant, and at what rates; also, the names of the agents through whom such sales were effected, and what rate of commission has been authorized by the Department for selling the same.

Mr. Williams, of Pennsylvania, offered a voluminous preamble and resolution, requiring the President to inform the House whether any of the military or civil employees of the Government within the State of Georgia, or any other rebel State, have countenanced or assisted in the rendition of public honors to any of the traitors, either living or dead.

Mr. Nicholson, of Delaware, objecting, the resolution was laid over for the day.

Mr. Stevens introduced the bill to enable the States lately in rebellion to regain their privileges in the Union, which was read twice and referred to the Committee of the Whole on the State of the Union. The bill is as follows:

"WHEREAS, Eleven States, which lately formed the government of the so-called Confederate States of America, have forfeited all their rights under the Constitution, and can be reinstated in the same only through the action of Congress; therefore

Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, That the eleven States lately in rebellion may form valid State governments in the following manner:

Section 2—The State governments now existing *de facto*, though illegally formed in the midst of martial law, and though, in many instances, their Constitutions were adapted under duress and submitted to the ratification of the people, and therefore are not to be treated as free republics, yet they are hereby acknowledged as valid governments for municipal purposes until the same shall be duly altered, and their Legislative and Executive officers shall be treated as such.

Section 3—Whenever the Legislature of said States shall enact that Conventions shall be called to form legitimate State Governments, by the formation and adoption of State Constitutions, the Governor or chief executive officer shall direct an election to be held on a certain day to choose delegates to a Convention, who shall meet at the time fixed by the Legislature, and form a State Constitution, which shall be submitted to a vote of the people, and if ratified by a majority of loyal voters, shall be declared the Constitution of the State.

Section 4—The persons who shall be entitled to vote at both of said elections shall be as follows: All male citizens above the age of twenty one years who have resided one year in said State or ten days within the election district.

Section 5—The word "citizens," as used in this act, shall be construed to mean all persons, except Indians not taxed, born in the United States or duly naturalized. Any male citizen above the age of twenty-one years shall be competent to be elected to act as a delegate to such convention.

Section 6—All persons who held office, either civil or military, under the government of the so-called Confederate States of America, or who swore allegiance to said government, are hereby declared to have forfeited their citizenship, and to have renounced all allegiance to the United States, and shall not be entitled to exercise the elective franchise until five years after they have filed their intentions or desire to be reinvested with the rights of citizenship, and shall swear allegiance to the United States, and renouace allegiance to all other governments or pretended governments, the said application to be filed, and the oath taken in the same courts that by law are authorized to naturalize foreigners.

Section 7.—No constitution shall be presented to, or acted on by Congress, which denies to any citizen any right, privilege, or immunity which are granted to every other citizen in the State. All laws shall be impartial, without regard to race or former condition. If the provisions of this section, should ever be altered, repealed, expunged or in any way abrogated, this act shall become void and said State shall lose its right to be represented in Congress.

Section 8.—Whenever the foregoing conditions shall be complied with, the citizens of said State may present said constitution to Congress, and if the same shall be approved by Congress, said State shall be declared entitled to the rights, privileges and immunities, and be subject to all the obligations and liabilities of a State within the Union. No Senator or Representative shall be admitted into either House of Congress until Congress shall have declared the State entitled thereto.

Mr. Thayer offered a resolution, which was adopted, dispensing with the evening sessions of the House until further orders.

Mr. Hale offered a resolution, which was adopted, calling on the Secretary of War for information on a variety of subjects connected with the operation of the Freedmen's Bureau.

Mr. Stevens offered a resolution instructing the Committee on Invalid Pensions to report a bill to double the pensions due by the casualties of the late war with the so-called Confederate States.

On suggestion of Mr Perham, the resolution was altered into one of inquiry, and as modified was adopted.

Mr. Spalding offered a resolution, which was adopted, instructing the Committee on Invalid Pensions to inquire into the expediency of putting surviving soldiers of the war of 1812 on the pension list.

Mr. Stillwell, of Indiana, offered a resolution directing the Committee on Invalid Pensions to report a bill extending the provisions of the Pension laws to provost marshals, deputy provost marshals and enrolling officers killed or disabled in the line of their duty.

Mr. Stillwell having declined to modify the resolution so as to make it one of inquiry merely, the yeas and nays were taken upon its adoption and the vote resulted as follows: Yeas, 65; nays, 55.

A resolution offered by Mr. Kerr, of Indiana, on the 26th of July, relating to the stamps on legal documents, came up and was referred to the Committee on Ways and Means.

Mr. Kelly offered a resolution calling on the Secretary of War for information in reference to railroad property in possession of the Government on the first of May, 1865.

Mr. Farnsworth objected to its consideration, and it was laid over for one day under the rule.

Mr. Randall offered a resolution calling on the Secretary of War for the report of Major General Stoneman on the recent riot at Memphis.

Mr. Blaine suggested the including of all other reports received on the same subject. The resolution, being so modified, was adopted.

Mr. Schenck offered a resolution, which was adopted, instructing the Committee on Military Affairs to inquire into the expediency of repealing all laws authorizing brevet rank in the army of the United States, and providing that all such distinction being abolished, some other mark, badge, recognition or reward for gallant action or meritorious conduct shall be substituted.

Mr. Grider offered a resolution directing that as loyal men have been elected by the people of Tennessee, as Senators and Representatives in Congress, they shall be admitted to seats in the present Congress on taking the oath of office.

Resolutions directing that, as loyal men had been elected from Tennessee to Congress, they be admitted on taking the usual oath, and that each of the States not now represented, shall be allowed representation on the same terms, were referred to the Construction Committee.

A resolution was adopted, instructing the Judiciary Committee to inquire into the expediency of abolishing all but one district court in each State not entitled to more than seven members of Congress.

A resolution was adopted, that the Military Committee inquire as to the expediency of providing a national military force instead of the regular army, to consist of volunteer regiments raised by each State for three years.

A resolution was adopted calling on the President for information as to the amount of cotton in the hands of the military authorities at the close of the war.

The Tax bill was taken up in the Committee of the Whole.

A proviso was added to the paragraph relating to tobacco, that persons exposing cigars for sale shall be deemed manufacturers.

A proviso was added making the tax on brandy distilled from grapes, apples or peaches, one dollar and a half per gallon.

The Committee rose and reported the bill and amendments to the House.

Mr. Williams, of Pa., under a similar arrangement to that made with Mr. Farnsworth, submitted an amendment to the sixty-fifth section, giving the appointment of special Commissioner of Revenue to the President by and with the advice and consent of the Senate, instead of the Secretary of the Treasury.

Debate was closed by Mr. Morrill, who intimated his views in regard to certain points and expressed the hope that in the course of two or three years the tax on manufactures could be dispensed with.

The amendments on which separate votes were desired were specified by the members. The first vote was on the amendment striking out the following proviso: "Provided, that no appeal shall be allowed to any party after he shall have been duly assessed and the annual list containing the assessment has been transmitted to the Collector of the District."

The amendment was rejected, and the proviso remains.

The next vote was on the amendment striking out the paragraph imposing a tax of ten per cent. on miners. The amendment was rejected.

The next vote was on the amendment inserting in the paragraph requiring monthly reports from cigar makers, a proviso that journeymen cigar makers and apprentices who work for others are not included in the provision. Passed by three majority.

The next vote was on the amendment striking out the sentence authorizing gas companies to add the tax to the price of gas sold. Agreed to.

The next vote was on the amendment striking out mowers, reapers, &c., from the paragraph taxing them three per cent. Agreed to by 15 majority. These articles were therefore added to the free list.

On motion of Mr. Morrill, bunting and flags of the United States, and banners made of bunting of domestic manufacture were added to the free list.

The next vote was on the amendment to reduce the tax on smoking tobacco of all kinds, not sweetened or stemed, from twenty to ten cents per pound. Rejected by a majority of thirteen.

The next vote was on Mr. Schenck's amendment in reference to cigarettes, graduating the tax according to the market value. The amendment was rejected.

The next vote was on the amendment, taking from the Secretary of the Treasury the appointment of Special Commissioner of the Revenue, and giving it to the President by and with the advice and consent of the Senate. Rejected by twenty-seven majority.

The next vote was on the amendment offered by Mr. Cobb to strike out the section providing for the appointment of Special Commissioner of the Revenue. Rejected by twenty-four majority.

The next vote was on the amendment adding a proviso that Assessors' lists of income shall be open to the public for inspection, but shall not be furnished for publication. Rejected by eleven nays.

The next vote was on the amendment offered to-day by Mr. Farnsworth, to insert the following as an additional section: "That all assessors, collectors and revenue agents provided for by this act, or the several acts to which this act is amendatory, shall be appointed by the President," &c. Rejected by nine majority.

All the other amendments were agreed to, and the bill was passed; yeas 111, nays 11.

Mr. Wilson, of Iowa, introduced a bill concerning the powers and duties of disbursing and accounting officers. Read twice and referred.

He also introduced a resolution calling on the Secretary of the Treasury for information as to how much gold belonging to the Government has been sold since the first of January, the compensation allowed and premium received, and whether any gold has been bought, &c.; also whether United States bonds have been bought for the Treasury since that date. Laid over for one day.

The Speaker presented a message from the President, transmitting, in answer to the House resolution of the 21st inst., the Report from the Secretary of War, with accompanying papers, relative to the operations of the Freedmen's Bureau. Laid on the table.

At five o'clock the House adjourned.

FROM KENTUCKY.

Adjournment of the Legislature—Isham Henderson's Case Resumed—Wm. McKay Hogis' Character for Truth Impeached—An Accessory to Murder Killed, Not Captured.

LOUISVILLE, May 28.—The Nashville Legislature adjourned until November 8th.

The case of Isham Henderson was resumed. The defence introduced forty-three depositions of prominent citizens of Wheeling, Va., as to the reputation for truth and varacity of William McKay Hogis. Thirty-two deponents agreed that his reputation was bad, and nearly all testified that they would not believe him under oath. Eleven testified that his reputation was that of a felon.

Baker, the associate and uncle of Terrell, was killed, not captured, as reported yesterday.

They gave no information respecting the trial, but remarked that they had just obtained permission to visit their client after many futile attempts during the past year.

Amusements

The Opera House last evening was crowded to its utmost capacity by a very select audience, in fact the auditorium presented the appearance of an immense milinary establishment, so profuse was the display made by the ladies. The entertainment in every essential was a complete success, his second sight being really marvellous, while his performance on the piano stamps him as one of the best musicians in the country. His various acts of magique during the evening were greeted by round after round of applause.

The favorite Irish drama of Arrah-na-Pogue was presented at the Theatre last night, with Ettie Henderson as Arrah Meelish and John E. M'Donough as Shaun of the Post. It is but a few months since this gentleman played the same character here, since which time he has made an exceedingly successful Southern tour, producing Arrah-na-Pogue and the spectacle of the Seven Sisters in Mobile and Memphis with immense success. The self-sacrificing, warm-hearted Irish peasant finds a truthful representative in Mr. M'Donough, while the character of Arrah is well rendered by Mrs. Henderson.

To-night the bill is repeated.

Common Pleas Court.—In this court, yesterday, Judge Mellon on the bench, the case of W. B. Ross vs. Peters Creek Oil Company was taken up. It is an action to recover some six thousand dollars, alleged to be due plaintiff from defendants. The plaintiff entered into a contract with the Company to sink two wells on their lands located on Peter's Creek, the money for such work to be paid as the drilling progressed. This agreement the plaintiff alleges has not complied with, and he brings the action to recover the amount due him for work done.

THE TEMPERANCEVILLE MURDER.

The Coroner's Inquest—The Evidence Adduced—The Murderer Still at Large.

In Monday's *Gazette* we gave some of the particulars of the shooting of George Roberts by Charles B. Stein, at the drinking saloon of the latter, in Temperanceville on Saturday evening. The jury selected by Coroner Clawson on Sunday met at the Mayor's office on Monday afternoon, when the following evidence was elicited:

William Whelton testified that he was in Stein's saloon on the evening stated and drank a glass of beer with Stein. He (witness) went into a back room, and in five or ten minutes returned to the bar-room, when Stein was telling Roberts that he must pay for the cigar he (Roberts) was smoking. Roberts denied this, and knocked the cigar out of his mouth. Witness called out that he would pay for it if Roberts had not, and moved towards the middle of the counter. Gossler, a German, was standing there, and pushed witness away, saying that was his place. Gossler presently began tussling with Grounds, and Mrs. Stein ran towards them with a club; she struck witness, who wrenched the club out of her hands, and in so doing caused her to fall on the floor. Witness continued I threw the club around the end of the counter. She ran out and I saw her no more. The next I heard was the pistol shot. Don't think there were any words between Roberts and Stein at the time the pistol was fired. Did not hear Stein say anything after he fired. He fired another shot and snapped two more caps. Roberts fell at the first shot. I suppose the second shot was fired at me. I dodged down at the first shot. The others had left the room and I went out, and Mrs. Stein locked the door. Neither Roberts or any one else took hold of Mrs. Stein. Most of the party ran out when the first shot was fired. The Germans were in the back room, and I suppose left through the back door. Did not see Stein leave. I think there were only our party in the bar-room at the time the shot was fired.

John Craig, sworn—Was in the bar-room at the time of the affray; Mr. Roberts had asked us to go in and take a glass of beer; Roberts handed the money for the beer, which was taken, and I then went into the back room. I soon heard a fuss about a cigar, and went into the bar-room. Heard Mr. Roberts tell Stein to give up the cigar. Stein said he had not paid for it. Roberts said he had. Whelton then moved up to where Gossler stood, and Grounds and Gossler got into a scuffle. I saw Stein have a pistol in his hand; he raised it up and tried to crack a cap; he then put it down, but put it up again. Roberts stood nearest to Stein, by the counter. I heard the pistol fired and saw Roberts fall. I was by the door and got out immediately. I was outside when the second shot was fired, but I heard it. A good while afterwards I went back; Mrs. Stein was in there and some men. Roberts had been carried out. Heard no words between Roberts and Stein at the time the shot was fired. Heard Stein say nothing. Did not see Stein afterwards. When he raised the pistol the first time, I think it was pointed at Roberts; Stein *did not order Roberts out before he fired.* Did not see Mrs. Stein thrown on the floor at all. The bar-keeper was not in the room at the time. Roberts did not say anything when he was shot.

William Grounds, sworn—Was in Stein's bar room when the shooting took place. Roberts called for the beer; Mrs. Stein gave it to him and he paid for it. I went into the back room where some Germans were singing. Five minutes or so afterwards I came out and heard Roberts and Stein talking about a cigar Roberts had in his mouth. Stein wanted pay for the cigar. Roberts said he had paid for it. Stein snatched it out of his mouth and threw it behind the counter, saying Roberts had not paid for it. Roberts said Stein was a liar; Stein drew his revolver but did not point it. Roberts said he had better not draw that on him. Did not hear any more between them. Roberts was sober at the time. I walked along by the counter, and Gossler shoved me away and some German struck me. Gossler then took hold of me, and I heard the report of the pistol and saw Roberts fall on his side. He fell with his face from me. We all started for the door, and I looked back and saw Stein pointing his pistol at Whelton and me. He fired at us but did not hit us; don't know whether Stein was drunk or not. After the crowd had left we went and burst the door open: found Roberts on the floor where he fell. Nobody was in the room. Don't know who was with me. Roberts was not dead. Did not see Stein then or afterwards. We took Roberts into the back room. Mrs. Stein came running in but went out. We carried Roberts to Mrs. Craig's boarding house near by. Roberts took only one drink before the shooting. I think he had only drank one before that.

Dr. G. L. McCook, sworn—Made a post-mortem examination of the body of David Roberts on Sunday, the 27th. Saw him first a few minutes before his death; found a wound in his left temple, a little above the ear. Sunday I cut off the cap of the skull and removed the brain; as I did so the bullet dropped into the basin. It had penetrated the left hemisphere of the brain but had not entered the right hemisphere. The wound caused death by suffusing the brain with blood, causing all the symptoms of apoplexy.

Stephen Timmons, sworn—Was in the bar-room when the shooting occurred. The door was barred; Mrs. Stein let me in. I saw Mr. Grounds and a German scuffling on the floor; saw Mrs. Stein run at Whelton with a pick handle, to hit him; he pulled it from her and she fell down; she then went out to another room. Stein came in, and without saying a word, levelled his revolver and shot Roberts. Stein was not in the room when Mrs. Stein ran out. Roberts did not make any move against Stein or speak to him before the shooting. He just leaned on the counter. Stein had his pistol in his pocket. He pointed it directly towards Roberts, who was nearest him. The pistol was not more than six inches from Roberts' face. After the first shot I moved back, and saw him fire again towards the door. Neither Stein nor Roberts was drunk. I think Roberts was perfectly sober. Whelton and Grounds were going out when Stein shot the second time. Mrs. Stein then shoved me out and bolted the door. About half an hour afterwards I burst the door open and went in. Hunted the house through for Stein, but did not find him.

Archy Ferguson, sworn—Was coming up the road and heard a fuss in the bar-room; so I went in. Stein was standing with a pistol in his hand. He snapped his pistol twice, and the third time it went off. *It was pointed at Roberts every time.*

John Hall, sworn—Heard a fuss in the saloon, and went in, and saw Stein raising his pistol. He rested his arm deliberately on the counter and aimed at Roberts. Roberts moved away, and Stein aimed again. He snapped the pistol twice, and the third time it went off.

Frederick Bassler, sworn—Went into Stein's at half past eight Saturday evening. Welton, Grounds, Craig and another young man were in there. Heard them talking loud with Stein. The young man I didn't know wanted Stein to fight him. Stein said he wouldn't fight. Stein raised the revolver and said, "that's the boy I fight with." Whelton then hit Gossler two licks, but Gossler wouldn't fight. Mrs. Stein then came up and tried to drive Whelton out with a club. Then Whelton got the club and she fell down. She screamed, and Stein fired his pistol. He fired a little after she fell down. Stein fired again, and the shot, I thought, went right past my ear. I got right away. Didn't look in again; had had enough of it.

James Painter, sworn—Went into Stein's saloon while the quarrel was going on. A young man whom they called Roberts told me to look at Stein; Stein had a revolver which he pointed at Roberts, and snapped three times. At the third time it went off. *Did not hear Roberts say one word to Stein, or see him make a motion towards him.*

This closed the testimony. The verdict returned was that the deceased "came to his death on the 26th day of May, by a bullet fired from a pistol in the hands of Charles B. Stein."

The evidence, as will be observed, is pretty strong against Stein, and does not justify the impression which seems to prevail that great provocation was offered by Roberts. The police have been very active, but up to a late hour last evening had not succeeded in apprehending the homicide.

The Races Yesterday.

A large number of spectators and sporting men assembled at the Oakland Park yesterday afternoon to witness the races, which came off in good style as per previous announcement. The weather was cool and pleasant, and the track in splendid condition. For the first race, a running match single mile dash, catch weights, McCallin, of Pittsburgh, entered grey h. "Billy," and Maj. H. Vanvoorhies, blue m. "Kathleen." The race was a handsome and exciting one, and won by the horse in 2.04.

For the second contest, half mile heats, best 3 in 5, bay h. "Sky Scraper" and bay m. "Virginia Bell" was entered. "Green Co. Sleeper," owned by Mr. Curl, of Green county, having been ruled out, though after the regular race, he showed 1.58, half mile heats. The race and purse was won by "Virginia Belle" in three straight heats; time, 1.57¾, 1.57, 1.58.

The entries for this afternoon are "Honest John," by Thomas Curl; "Virginia Bell," by James Stephens; and "Jennie," by H. B. Vanvoorhies. Purse, $75 and $25, best 3 in 5, mile heats. Horses to be ready at 2.30 o'clock. This will doubtless be one of the most interesting races of the season.

Meeting of Veterans.

A meeting of the surviving members of the 63d Regiment, Pa. Vols. was held at the St. Clair Hotel, last evening. Col. A. S. M. Morgan was called to the chair, and Capt. George B. Chalmers chosen Secretary. By request of the President, Lieut. Col. John A. Danks stated the object of the meeting to be to consult in regard to the forwarding of the colors of the regiment, and the color guard, to Philadelphia, at the forthcoming presentation. Col. Morgan, Lieut. Col. Danks and Capt. Theodore Bagaley were appointed a committee of arrangement, whose duty it will be to receive the names of members of the regiment who wish to go to Philadelphia. On motion, it was resolved to attend the presentation in a body. The meeting adjourned to meet at the call of the Committee of Arrangements.

Found Drowned.—We were informed yesterday that the body of an unknown woman was found floating in the Ohio river at Steubenville on Friday. The body gave evidence of having been severely burned, and in a belt around the waist was found $30,000 in greenbacks. The body not being identified was buried by the authorities. We do not vouch for the above, but only relate it as we learned it.

Meeting of City Councils.

The regular monthly meeting of the Select and Common Councils took place last evening in their chambers in the City Building.

SELECT COUNCIL.

Present — Messrs. Armstrong, Barckley, Brown, Coffin, Coursin, Gallaher, McLaughlin, McMillan, Morrow, Normine, Shipton, Thompson, White, Wilson and President McAuley.

The minutes of the previous meeting were read and approved, after which a communication from a committee appointed by the Board of Health was read, asking for an appropriation of $2,000 to be given to the Board in order to enable them to place the city in a good sanitary condition.

On motion of Mr. Morrow, the communication was accepted and referred to the Sanitary Committee.

A petition from the citizens of the Sixth and Seventh wards was presented, asking that both the upper and lower basins be properly cleansed and renovated. Referred to the Water Committee.

A petition for the erection of gas lamps on Webster street, between Elm and Logan, was referred to the Gas Committee.

A Committee appointed by the Good Intent Fire Company, presented a petition asking for an appropriation of five hundred feet of ten inch hose for the use of the company. Referred to the Committee on Engines and Hose.

Mr. Barckley presented a remonstrance against the paving of Centre avenue. Referred to Street Committee.

A petition asking for the grading and paving of Centre avenue, between Dinwiddie and Kirkpatrick streets. Referred to Street Committee.

Mr. McLaughlin offered the following resolution, which, after an exciting debate, was finally passed:

Resolved, That the Superintendent of the Water-works be and is hereby instructed to at once cleanse the upper basin of the accumulated filth contained therein, and further, that the Superintendent be instructed to have both the basins cleaned three times between this date and next November, as circumstances will permit.

Mr. McLaughlin also offered a resolution to rescind the appropriation of $3,000 voted to the Sanitary Committee on the 30th of April, 1866, and that the $2,000 yet unexpended be given to the Board of Health.

Mr. Morrow moved that the resolution be laid on the table—a vote being taken the motion prevailed.

Mr. Coursin offered the following which after three readings passed: *Resolved*, That the Committee on City Property be, and are hereby authorized to contract for, and have built for the Good Intent Fire Company, a new engine house on the ground where the present house stands—the expense not to exceed the sum of $12,000.

Mr. Gallaher offered a resolution instructing the Water Committee to have the water of the Allegheny river thoroughly analized, in order to learn whether it is fit for human consumption or not.

On motion of Mr. Armstrong the resolution was laid on the table by a vote of 12 to 3.

A communication was read from the City Solicitor in regard to the recent act of the Legislature granting a bounty of $300 to all veteran volunteers who have not received local bounties from the districts to which they have been credited. There are about one hundred cases for which the city would be liable, involving an expenditure of $30,000. The act requires a special tax for the payment of these claims, and if they are to be paid, some system should be adopted to guard against fraudulent claims. The Solicitor suggested that a stated case be prepared for trial in Court to test the legality of the act.

The communication, on motion of Mr. Coursin, was referred to the Finance Committee.

Mr. Barckley, the following:

Resolved, That the Street Commissioner of the Second District be authorized to clear, drain and remove all nuisances from Keating alley.

On motion of Mr. Coursin it was indefinitely postponed.

In all matters not otherwise noted, there was a mutual concurrence.

Adjourned.

COMMON COUNCIL.

Present:—Messrs. Beck, Beggs, Brush, Diehl, Dickson, Ford, Hare, Killen, Layng, Moreland, McEwen, J. M., McQuewan, A. B., McClelland, McGowan, O'Neill, Ogden, Patchell, Rebman, Seibert, Simpson, Tomlinson, Turley, Verner, Weldon, Welsh, and Steel, President.

The minutes of the previous meeting were read and approved.

Mr. Ogden presented a communication from the Duquesne Engine Company, asking Councils to dispose of the house now occupied by them on Smithfield street and purchase a lot on Second street, on which a house suitable to their wants could be erected. The communication was accepted, and the following resolution read three times and adopted:

Resolved, That a committee of three, one from the Select and two from the Common Council, be appointed to inquire into the expediency of selling the lot and house occupied by the Duquesne Fire Company, in accordance with the request of the Company. Messrs. Ogden and Killen were appointed on the part of C. C.

Mr. O'Neill, from the committee appointed to take into consideration the expediency of codifying the existing ordinances of the city, reported that a competent person could be engaged to arrange, compile, codify and superintend the printing of the ordinances for a sum of $700: that the cost of publishing the ordinances would be about one dollar per copy, provided one thousand copies were ordered. The committee recommended that the work be commenced at once, and offered a resolution to that effect, which was read three times and adopted.

Mr. Hare presented a petition for the grading and paving of Etna street, which was read and referred to the Committee on Streets.

Mr. Ford presented a petition from Mr. A. D. Cheney, Secretary of the Keystone Bridge Company, praying for a reduction of their business tax. The petition was accepted and referred to the Finance Committee, with power to act.

Mr. Ford offered a resolution providing for the erection of water mains on Baldwin street, between Smallman and Butler streets. Read and referred to Water Committee.

Mr. McGowan offered a resolution instructing the Water Committee to have Walnut street, between Etna and Liberty streets, repaired. Read and referred to Street Committee.

Mr. Ogden, from the special committee appointed to take into consideration the propriety of the erection of a Fire Alarm Telegraph, reported that a portion of the committee had visited Philadelphia and New York, and after making diligent inquiries and examining the workings of the various systems, had concluded to recommend the adoption of Gamwell, Kennard & Co's system. The committee also offered a resolution providing for the appointment of a committee of three, one from the Select and two from the Common Council, to contract for the erection of a Fire Alarm Telegraph.

Mr. Ogden stated that the committee was unanimously in favor of the system recommended, the price of which would be sixteen thousand dollars. It was the only complete system they had examined, and would comprise thirty iron signal boxes distributed throughout the city, and ten in the engine houses. Eight thousand dollars would be required at the completion of the line, and eight thousand dollars in February, 1867.

Mr. McGowan desired to know whether the committee had provided for the expense that would be incurred in the erection of the proposed Fire Alarm Telegraph.

Mr. Ogden said there would be no difficulty in regard to the expense.

Mr. Turley stated that he had been authorized to state that the various insurance companies would assist in its construction.

The resolution was then unanimously adopted, and Messrs. Ogden and Hare appointed on the committee from C. C. S. C. concurred, and appointed Mr. Brown.

Mr. Ford presented a resolution instructing the Water Committee, in conjunction with the Superintendent of the Water Works, to make an investigation as to what parts of the city are insufficiently supplied with water, and to present a plan to Councils to remedy the evil. Read three times and passed.

Mr. Killen presented bills from W. A. Herron, Clerk of Courts, for costs, in various cases, amounting to $22,50, which were read, ordered to be paid, and charged to Contingent fund.

Mr. Moreland offered a resolution providing for the erection of a city gas lamp on Washington street, between Liberty and Prospect streets, which was read and referred to the Committee on Gas.

Mr. Moreland offered the following resolution, which was unanimously adopted, without debate:

Resolved, That the resolution passed by Councils, instructing the cleansing of the upper basin three times between this and November, is not to be construed as a censure of the efficient Superintendent of Water Works, Colonel Joseph French, but as a simple expression of the desire of Councils to supply the citizens with pure water for sanitary purposes; and that this body has entire confidence in the zeal, ability and industry of the Superintendent, Col. French.

Council then adjourned.

Terrible Affair in Beaver County.

We are called upon to record another instance of loss of life by the careless handling of oil. This latest casualty occurred at the residence of Mr. Joseph Anderson, coal miner, in Rochester township, near New Brighton, in Beaver county. Mary, a daughter of Mr. A., aged fourteen, was preparing to get breakfast, and having kindled a fire in the cooking stove, poured carbon oil on it to accelerate its burning. Instantly the flame communicated to the oil in the can which she held in her hands, and an explosion next followed. Her clothing was soon all ablaze, and her shrieks brought her parents to the rescue, but not in sufficient time to prevent her from being dreadfully burned. The mother's clothing became ignited, and before the flames could be extinguished by the father, she too was fearfully burned. The daughter suffered in great agony until four o'clock in the afternoon, when she expired. Mrs. Anderson's injuries are of such a severe nature that it is thought she cannot recover. Mr. Anderson had his hands and feet burned, but not seriously. The fire also communicated to the furniture in the kitchen, but was extinguished before it obtained headway.

Destructive Fire—Lafayette Hall and Apollo Building Destroyed.

This morning, about one o'clock, a fire broke out in Harry Nichols' billiard saloon, situated in the second story of Apollo Hall, on Fourth street, near Wood street, and before the flames could be extinguished they communicated to Lafayette Hall, the rear of which adjoined the saloon. When our reporter reached the scene of the conflagration, a few moments after the alarm had been sounded, the flames had already gained the roof of the building in which the fire originated, and soon after communicated to the rear of Lafayette Hall, which, being composed of light frame work, became an easy prey to the devouring element. The fire department, with creditable alacrity, obeyed the alarm, and were soon on the ground, straining every nerve to stay the destruction. But the fire had gained such headway, owing to the combustible material of the buildings, that for a time their efforts were almost futile and it was feared that the entire block would be destroyed. Finally, however, they gained the ascendancy, and the fire was suppressed, not, however, until Lafayette Hall had been totally destroyed and the contiguous buildings so damaged as to render them untenable until repaired. The former building was the oldest public hall in the city, and was owned by Alex. McClurg, Esq., who is the proprietor of the new Academy of Music. It was formerly known by the appellation of Madame Blake's Assembly Rooms, and had a seating capacity for one thousand people; but of late years it has been mostly used as a ball room.

Beneath the Hall on the first floor was an eating saloon, which, with its contents, was totally destroyed—the proprietor really saving nothing. Next to Lafayette Hall and on the corner of Fourth street, was a large four-story brick building, the upper story of which was also burned. The Mercantile Agency occupied the second floor, and James S. Brady, banker, the first. Apollo Hall, in which the fire originated, was a two-story structure, the upper one being occupied by Harry Nichols as a billiard room and the lower by the following: F. Nemoth, artificial limb manufacturer; Reed's book store, George Paster's barber saloon, Hugh Fitzpatrick's looking-glass and picture-frame store, and a beer saloon kept by a party whose name we could not learn.

The losses sustained, so far as we could ascertain, are as follows:

Harry Nicholls, Lafayette Hall Billiard Saloss $3,000. Partly insured.

S. M. Ott, Fourth street, seal engraver and press manufacturer. Loss $500. Fully insured.

Barker & Hazelton, looking-glass and frame manufacturers. Loss $200. Fully insured.

H. Fitzpatrick's gold pen manufactory. Loss $750. Insured.

Frederick W. Nubert, manufacturer of artificial arms and legs. Loss $1,000.

W. th & Schermer's Lafayette Dining Rooms. Loss $500. No insurance.

Broadstreet's Mercantile Agency. Loss $200, principally from water.

J. L. Read's book-store. All the stock saved. Loss $300. Fully insured.

Iron City Bank trifling damage from water. Insured.

Dunn's Mercantile Agency. Loss, $300. Books and papers saved. Insured.

Lorenzo Dummett's candy manufactory. Loss about $1,500. Fully insured.

James T. Brady & Co.'s banking house. Loss very trifling from water.

Schoonmaker & Lang's oil, paint and chemical stores. Loss about $1,750. Insured.

R. C. Loomis, dealer in boots and shoes. Loss from water $500. Insured.

W. G. Johnston & Co., book store and publishers. Loss from water $2,000. Insured.

M. McCallister, saloon keeper, Third street, rear part of building destroyed. Loss $200. Insured.

J. W. Woodwell's cabinet ware rooms, rear part destroyed. Loss $500. Insured.

The loss of Mr. Alexander McClurg, owner of Lafayette Hall, will amount to a sum approximating to $20,000. We did not learn the amount of his insurance. It is but a short time since that the Atheneum on Liberty street, belonging to the same gentleman, was destroyed by fire. We could not ascertain to whom belonged the other buildings destroyed.

The Friends of Social Liberty Again in Council.

The friends of Social Liberty, or those who do not approve of the present Liquor License Law, and the manner of its enforcement, held a second meeting, pursuant to call, in Splane's building, corner of Fifth and Smithfield streets, last evening. The meeting came to order, by Mr. Hugh McAfee, of Temperanceville, taking the chair. Mr. Horn, of Allegheny, was chosen Vice President. Reporters of the press present were requested to act as Secretaries of the meeting.

Mr. McAfee, on taking the chair, made a few remarks. He was unaccustomed to occupy so high a position, but was willing to do the best he could as President of the meeting. He was not afraid of public opinion, and would do his share towards defeating the opponents of social liberty.

Mr. J. F. Zoller being called upon, made a brief speech in the German language. He was in favor of a free licence law, and believed that the power of granting license to sell liquor should not be confined to four county officials, the judges of the Quarter Sessions.

Mr. Stephen M. Ott was the next speaker, and gave his attention first to the German press, which, he said, had been the first to cry down the meetings of the Reform Society. As a punishment for this, he suggested that the German population should withdraw their support from the German press. If this were done, the papers could not live a day. He believed that the support of an English paper should be secured, be it of black Republican or Democratic proclivities. The German people had been the prime movers in the Reform Society. Germans, said the speaker, drank from the cradle to the grave, yet it could not justly be said the Germans were drunkards. They drank beer and wine, and would continue to do. The movement now commenced would be continued until the opponents of Social Liberty would be crushed. This would be accomplished within a year. The speaker closed by suggesting that the Executive Committee appoint Ward Committees to attend to the interests of the Social Liberty movement.

Mr. John H. Sawyer was the next speaker. Like the great Jefferson, he had sworn eternal hostility to any form of tyranny over the minds of men. Coming to the main subject, he said he was not in favor of the alteration or amendment of the liquor license law, but in favor of its entire obliteration from the statute book. Liquor, spirituous, vinous and malt, was an article of commerce, taxed as such, yielded a revenue to the Government of ten millions of dollars, and any abridgment of the privilege of traffic or indulgence therein was improper, unjust, tyrannical. Not only as dealers in spirituous and other liquors, but as citizens, those present had met in council to protect their social rights, and in doing this there should be unity of action. Men should be elected who would subserve their interests—not men who could be bought for ten cents as he (the speaker) understood some of the members of the last Legislature had been—but men of character and influence who would not betray. After some further remarks, the meeting adjourned to meet at the call of the Executive Committee.

Pittsburgh Temperance League.

Pursuant to announcement, the Pittsburgh Temperance League assembled last night at the First Presbyterian church, on Wood street. An unusually large and respectable audience was in attendance. The exercises opened by the offering to the Throne of Grace of an eloquent and impressive prayer by Rev. Dr. Prestly. At the conclusion of the prayer the minutes of the previous meeting were read and approved. The President, Dr. A. G. McCandless, stated that in response to the invitation of the League, Rev. Herrick Johnson was in attendance, and prepared to deliver his lecture on Domestic Wine. The learned lecturer was then introduced and proceeded to address the audience. He surpassed his usual powerful style of oratory, and delivered one of the most eloquent and impressive lectures we have ever had the pleasure of hearing.

At the conclusion of the address, which was listened to with marked attention, President McCandless gave notice to the Vigilance Committees to be on the alert, as the License Court assembles on Wednesday next.

On motion of Dr. Wray, a vote of thanks was tendered Rev. Mr. Johnson for the able and eloquent address delivered, and requesting that the manuscript be furnished the Ledger for publication in pamphlet form. After the singing, by the audience, of the doxology "Praise God from whom all blessings flow" and benediction by the Rev. M. Scoville, the meeting adjourned.

John W. Taylor, Esq.—The card of John W. Taylor, Esq., Attorney and Counsellor at Law, No. 69 Grant street, appears in another column. Mr. Taylor is among the few of our well read and thoroughly schooled lawyers, having graduated with first honors from one of the oldest and best of colleges in the country. He is fully qualified for all professional business, and aside from Court duties to clients, attends to the drawing of all legal papers, such as deeds, bonds, mortgages, &c., &c. We cheerfully recommend Mr. Taylor to the patronage of the public, knowing him to be an able, talented, careful and attentive gentleman, worthy of unlimited confidence.

Ladies Fair.—To-day the ladies of the First Baptist church open a Fair at the Girard Hotel building, on the corner of Third and Smithfield streets. Their willing hands have manufactured a large quantity of fancy and useful articles which they hope to dispose of to a charitable community. From twelve till three o'clock an excellent dinner will be served to visitors. The Fair should be well patronized, and we know of no place where a more pleasant hour can be spent. Members of the County Convention will not forget that they are invited to attend the dinner.

McBane & Anjer.—The well known house of McBane & Anjer, No. 124 Second street, advertise in another column five hundred bushels of seed buckwheat for sale. This firm does a large and prosperous commission and produce business, and by fair dealing and upright conduct monopolize a goodly share of the trade in that line of the city.

Recommitted.—John Scall, recently committed to jail to answer a charge of assault and battery by Alderman Humbert, and who subsequently procured bail, was yesterday recommitted, at the instance of his bail-piece, Mr. J. F. Laughran, who feared that Scall was making preparations to escape.

Threatened to Shoot.—Thos. M. Clarran made oath against Thomas Morgan yesterday before Alderman Lynch for assault and battery and surety of the peace. The deponent alleges that Morgan pushed him out of his house and threatened to shoot him. A warrant was issued.

A Storm Predicted.—"G. A.," in his last metereological discussion, says: "There may be a frost in high regions to-morrow (this) or Wednesday morning, and bring another storm by Saturday night."

UNION FENCE COMPANY,
PAINESVILLE, OHIO.
A new style of Fence, manufactured by the Union Fence Company. The beauty of design, combined with the perfect protection of all its parts from decay or disorder, has given it that justly earned name "The King of Fences." To all those who are in want of a fence that shall beautify their homes and remain as an inheritance to their children, we ask a moment's consideration to the following facts:
First—In the manufacturing of this fence we use no unsound or unseasoned lumber.
Second—All our work is done by machinery, is snugly fitted and driven together with lead and oil.
Third—By a novel method the whole is finished with a double coating of the best white lead, oil and sand, giving when complete, the appearance of a solid granite or brown stone.
Fourth—When set up each section is supported by an adjustable iron brace, and rests upon a hewn stone base set into the ground at a sufficient depth to secure it against the action of frost; all the joints or connections are substantially secured by iron clasps and so perfectly cemented that decay by the accumulation of water is impossible.
Fifth—The gate, ends and corners of the fence are provided with heavy iron posts of new and beautiful designs, while the Gates swing upon adjustable hinges and catch upon adjustable catches so that they need never be out of order.
Last but not least, all these advantages are to be had with stone furnished, fence set up and complete, at a price not exceeding that of a good stone base for an iron fence.
Those wanting fence will find it to their advantage to examine samples of different styles of this fence at the Warehouse of PETER PETERSON,
my29:b73 45 Federal street, Allegheny.

FOR GOVERNOR:
MAJ. GEN. JOHN W. GEARY,
OF CUMBERLAND COUNTY.

WHAT IS IT ABOUT?

Americans have been frequently amused at the blunders made by Europeans concerning matters pertaining to this country. They are now perceiving that they blunder as egregiously about movements on the other side of the Atlantic. Hence various inquiries for solutions of the causes of the present agitations in Europe.

The Duchies of Holstein and Schleswig are German, and, for many ages, have been represented in the Diet. They are subject to the Salic law, which decrees that a woman shall not reign. In the fifteenth century, they passed by inheritance to the King of Denmark. In 1863 Frederick VII. died, and with him the direct male line terminating, the Duke of Augustenburg asserted his pretensions. But, the Great Powers, at the London Conference, in 1852, foreseeing this contingency, had determined the Duchies should be retained by Denmark. This was simply setting aside the old rule of inheritance in deference to long possession. Perhaps considerations relating to the tranquility of Europe had weight. An appeal was finally taken to the Diet, and order made that the Dane should be dispossessed. To execute this order the smaller powers moved first; then Prussia dipped in, and Austria followed. Instead of stopping with the conquest of the two Duchies, they went farther and took Lauenburg as well. England grumbled; threatened some, but did nothing. Denmark was induced to cede the three provinces to Prussia and Austria jointly. Shortly after this treaty was signed, Prussia brought out Austria, so far as concerned Lauenburg. Over the other two Duchies they wrangled till last year, when they made a provisional arrangement, Prussia to take care of Schleswig, the harbor of Kiel, and the Federal fort of Rendsburg—Austria to take care of Holstein.

BISMARK, the master spirit of Prussian politics, holds that Austria has no business in Germany; that the greater part of her territory and population being out side the Germanic empire, she should relinquish her German provinces, and make her capital at Pesth. Such retreat would leave Prussia the most powerful of the German States, and eventually allow her to draw all the lesser States under her own sway—realizing the dream of a Germany, not loosely united in a Confederation, but consolidated into a homogeneous empire.

In February last BISMARK demanded that Austria should evacuate Holstein, meaning that Prussia should take possession of it. In consequence Austria increased her army. This was at once a menace to Prussia and to Italy. Forthwith Italy augmented the number of her troops, professedly to be in readiness to repel any attack by way of Venetia.

Prussia, wanting Austria out of Germany, and Italy wanting her out of Venetia, naturally drew together, and played in favor of one another. Prussia promised to disarm, if Austria would. Austria retired her forces from the frontier looking towards Prussia. Then Italy claimed that she was endangered. Now it is stated that Italy and Prussia have formed a treaty for offensive operations against Austria, and that France has agreed to back them up.

How far France is engaged in this matter may be regarded as an open question. NAPOLEON made a brief speech at Auxerre, or, rather, published a little speech to the Mayor which he did not make. The substance of it was that he detested the treaties of 1815. Nothing is more natural. By those treaties the BONAPARTES were excluded from the throne of France, and the boundaries of that empire restricted. When NAPOLEON ascended the throne he set the treaties at defiance; as he did again when he annexed Savoy. But the treaties portioned Germany and Italy into numerous kingdoms and principalities. As questions of German and Italian politics were uppermost in public attention, the inference was easily deduced that NAPOLEON detested the treaties specially on that account, or, at least, that he gave expression to his detestation in order to signify approval of the Prussian and Italian movements. But another solution is just as probable. In the *Corps Legislatif*, in the progress of a debate between M. ROUGHER and M. THIERS, the latter, in his brilliant and impressive way, maintained that the treaties were the only safe guides in dealing with European politics. Such a speech was at once a reproach and a menace to the Emperor. It may be he designed his speech at Auxerre primarily, if not exclusively, as a rebuke to the Senator.

This, however, is certain, that NAPOLEON holds the issue of peace or war in his hands. He will not allow hostilities to be prosecuted unless he thinks the way will open for him to push the boundaries of France to the Rhine, or that in some other way he can reap important advantages.

In case of actual war involving all four of these nations, it may reasonably be presumed so enterprising a power as Russia will not remain idle, but will strike out boldly for Constantinople and appropriate to herself the spoil of "the sick man," which she once offered to share with others.

It will be seen, therefore, that dynastic ambitions are at the bottom of the present perturbations of the European nations. None of them openly avow what they intend. Each avails itself of the cry most suitable to its purpose. With so many powerful motives conspiring to produce war the maintenance of peace becomes exceedingly problematical.

THE OHIO RIVER.

A concerted assault has recently been made by journals of this city in the Democratic interest upon Gen. J. K. MOORHEAD, in relation to the procurement of an appropriation for improving the navigation of the Ohio river. Now, we venture to affirm, not only that there is no foundation in truth for charges of inefficiency or negligence against Gen. MOORHEAD, but that the journals making these accusations do not themselves believe them warranted by facts. No member of Congress from Pennsylvania, or any other State, has earned a higher reputation for strict attention to all matters involving the welfare of his constituents, or any portion of them.

A deputation of business men of this city were recently at Washington, and had occasion to meet the Committee of Commerce of the House of Representatives. In the course of the interview the matter of improving the Ohio was spoken of. The Chairman of the Committee volunteered to remark that Gen. MOORHEAD had been most assiduous and pressing in regard to this matter; that there were insuperable legal obstacles in the way of procuring an immediate appropriation; that the law required a specification and estimate of the work to be done, before an appropriation could be passed; that provision had been secured for having a specification and estimate of the cost made of the desirable improvements between Pittsburgh and Buffington Island; and that this was obtained through the persistent efforts of the General. We make this statement on the authority of one of the gentlemen of the deputation.

THE JOHNSON POLICY.

EDITORS GAZETTE:—A newspaper starting out with the avowal that "no humbuggery of party organization will control it," although it may wear a friendly mask when its writers approach the Senate, asking for the confirmation of a Presidential nomination—cannot possibly delude any intelligent member of the Union party, who cares for principle and despises official place when purchased by fawning. This reflection dissipates all fear of defections from our ranks, beyond the insignificant circle of the few malcontents that thirst and clamor for office. It is fit and proper, however, that a journal thus launched into existence, should grace its eclectic columns with an article from the "Bloomsburg *Columbian*," the home organ of Senator Buckalew. This course of conduct at the start, is manly, and quite satisfactory; especially so when the article alluded to bears the unmistakable impress of the pen of the Senator himself. Who is there so able and willing to defend the Johnson policy as Mr. Buckalew? It is true he does not show his hand or wag his tongue as much as Mr. Cowan; but still, he is a more adroit and perhaps an abler man than the latter.

But how can gentlemen whose antecedents are of the Republican school, endorse the Bloomsburg article, whose first words relate to "*a trick of the Disunionists in and out of Congress*?" By the word Disunionists, as quoted, is meant the majority in Congress. And yet, how ardently does the Johnson clique in this city beg the *Disunionists* in the Senate to confirm the nominations of Messrs. McKelvy, Hampton, Robinson, Lloyd, etc? The editor of the new journal, whose well known literary abilities, smothered too long under the cares of business, have at last happily found vent—has of late visited Washington on many political pilgrimages to these same "Disunionists," in and out of the Senate. Did he use this false epithet when he blandly approached them? When did he leave his party, and thus join hands with its enemies?

It is impudent, impertinent, and false to call our members of Congress "Disunionists." They are the men who, from the firing upon Fort Sumter until the present hour, have continuously and unfalteringly sustained the cause of the Union against all rebels and copperheads. The New York *News* and *World*—two infamous sheets in the interests of the South, and of the ignorant and corrupt "Democracy" of that misgoverned city, are the originators of the calumnious epithet; provided, however, that no claim to the invention be set up as arising from the celebrated stump speech delivered by the President on the 22d of February.

To say that Andrew Johnson is now pursuing the precise line of policy marked out by the lamented Lincoln, is to utter what is also notoriously untrue. To go no farther for proof than to his own oft-repeated declarations, it would be sufficient to state that Mr. Johnson invariably terms it "my policy." He wishes everybody to consider that it is exclusively his own. In fact he seems to become piqued when he hears any one boasting that he is pursuing the programme of his predecessor. He indignantly disclaims that he is Lincoln's *executor*, and has a hot ambition to figure in history as "the restorer of the Union." This is a laudable aspiration; but he should be extremely cautious as to the means employed to secure that desirable end. To most loyal men his course appears rash, headlong, obstinate, and lacking in the essentials of security, justice and permanency. It is painfully evident that the fruits of his plan will be only nominal and evanescent, producing new dangers and fresh disturbances, rather than gradual harmony and solid peace.

It is said of Cæsar that "he began his political career by a trial, which is always honorable, *persecution borne for a great cause*." It was thus Andrew Johnson became Vice President; he was persecuted by the rebels. This gave him a prestige which won the hearts of the North, and placed him on the ballots, alongside of Lincoln. Yet, strange to say, all his former persecutors are now his admiring friends—the bitterest of them the most loving—whilst those who were most zealous in his elevation are frowned upon, turned out of office, and called "Disunionists!" See with what tender care he guards the person of Jefferson Davis, and furnishes the dainty and aristocratic traitor with all the delicacies and luxuries of the season! We wonder if he has ever invited any poor, crippled Union soldier to sit down with him at a Presidential banquet? Why is it that all rebeldom now clings to him as the representative of its hopes and desires, and that the so-called Democracy applaud him to the skies, whilst the loyalty that bore the heat and burden of the war averts its face from him? Cæsar and Bonaparte pleaded for their usurpations that they were for the liberties of the people, the salvation of society and the general progress of humanity. Seward and other members of the Cabinet—fond of place and power—approve the President's dictation to the Southern conventions, affirm his vetoes, and endorse his entire policy. The Union, they say, under the management of this one man, is not merely reconstructed, but fully restored! All it wants is reconciliation. Gen. Grant, on the contrary, says that the Southern people are much less disposed now to bring themselves to the proper frame of mind than they were one year since. "A year ago," states Grant, "they were willing to do anything. Now they regard themselves as masters of the situation." Has it come to this that our representative form of government is a nullity—that in the midst of the tempest which imperils the vessel of State, the people's chosen agents are not trustworthy, and that Andrew Johnson alone can direct its course, and conduct it into port? Oh, how pleasant it now is for Seward, McCulloch, and the rest, to poke their sarcasms at the representatives of the loyal masses, to deride their wisdom and patriotism, and to mock their honest efforts to attain the just results of the war—security, equality, and lasting peace. Pleasant it must be to these supple, pliant gentlemen; for ready obedience and thick praise make their master chuckle, and they get their coveted reward by being permitted to retain their places and port-folios. To ridicule Congress is now the best passport to the favor of the President. To scout the people's representatives—to deny their efficiency, wisdom, and virtue, and to applaud the one-man-plan—this is, indeed, the royal road to the Executive smiles, to office, fortune and power. Strange spectacle, truly, in a republic. Andrew Johnson, by disregarding the voice of the people who elected him, is the instigator of the hostile perturbation which now exists in the Southern States. He assumes an air of absolutism which makes freedom shrink and tremble for her imperilled precedents. As it regards the fate of this republic, the Rubicon is crossed whenever it becomes common to sneer at the Senate and our representative assembly—to distrust them, and to repose exclusive confidence in any one man. Alas, how many legitimate hopes were blighted when Lincoln fell! He did not care for power for power's sake.

Andrew Johnson diverged from every thought and plan of the good Lincoln, from the moment when, in his first message, he took ground against the authority and constitutional right of Congress over the whole subject-matter of the restoration of the rebellious States to their practical relations with the Union. In his first message, he should have presented his action in the premises for approval or rejection; because the representatives of the loyal States and people had the right of supervision under the Constitution. Thenceforth he should have confided the entire affair in the hands of the law making power. Indeed, the first act of his administration ought to have been the convening of Congress in special session—the omission to do which constituted a fatal blunder, to speak mildly, from which date all his troubles, as well as the immeasurable grievances inflicted upon the country and the cause of loyalty. In nearly all his subsequent messages, speeches, and acts, he has gone on from bad to worse, until arriving at the substantial point where he asks Congress to register his decrees and edicts, as if he were an emperor—he berates them for their non-concurrence in *his policy*, and calls some of them traitors for their leading opposition. He has had the audacity, because of difference of opinions, to compare, by name, prominent republicans and trusted patriots, with the vilest of the rebel leaders.

In fine, President Lincoln never disputed nor denied the power of Congress over the whole question. President Johnson does. Lincoln always respected the loyal masses of the north, who, by their men and money, crushed rebellion and saved the Union. Johnson does not; because, in several instances, he has abused and insulted their faithful, long-tried representatives. Abraham Lincoln never trusted—never sought the friendship and alliance of those northern sympathisers with secession and rebellion, who, at Chicago, pronounced our just, defensive war *a failure*, and who, by their seditious gatherings, speeches, and writings, encouraged the open, red-handed traitors, resisted the draft, sowed seeds of strife and dissension in loyal States, and prolonged the bloody war. The most numerous and potent supporters of "my policy" in the Senate and House, and everywhere in the north, for the most part, just the sort of persons above described—and they are the most welcome visitors at the White House. Andrew Johnson chiefly collects his partisans from pardoned rebels, poisonous copperheads, and fishy Republicans. General Grant, however, is the representative of a new era, and the hope of a better future.

Restoration, without reasonable guarantees, is impossible. All free persons must have equal civil rights; representation must have a new and just basis; and the national debt—the cost of loyalty—must be held so sacred an obligation, as that the debts and losses of the rebellious aggressors shall be now and forever held null, void, and irreparable.

UNION.

For the Pittsburgh Gazette.

THE CONVENTION.

MESSRS. EDITORS: The old dodge of stealing the livery of the court of heaven to serve the devil in, is resorted to by some copperhead or rebel in yesterday's *Commercial*, who deceptively assumes the guise of an "Old Republican." Either this, or else he is so "old" that his noddle is full of childish vagaries, and sans eyes, sans teeth, sans everything, he maunders what he knows not of. This doting "Old Republican" of the "Pittsburgh Newspaper and Printing Company" make up, is fearful lest the County Convention of to-day should follow the teachings of Stevens, Sumner, Butler, and others of the radical school. If it does do so, we are doomed to defeat, says this aged sybil. But should Andy Johnson, Jeff Davis & Co. be endorsed, then victory will perch upon our banners and all will be well, and our dear country safe!

We like a Republican, be he young or old. We train with that crowd, but we fail to see the danger predicted by our old friend (?) of the *Commercial*, or to share in his apprehensions. Timid counsels, half-way measures, and that fatal tendency to compromise truth with error for the sake of expediency, which is the bane of our politics, and the source from whence sprang all our woes, will not do *now*. Earnest men and radical ideas are the necessity of the hour. Moved neither by malignant Fate or a morbid sympathy towards those who lately sought to overthrow our Government, let us resolve to make treason odious—a crime so deadly as never to be forgiven or pardoned. Animated by a solemn sense of patriotic duty, equal to either fortune that may await us of victory or defeat, let us firmly stand by the right, and so speak, act and vote as to have the applause of our own consciences, at the risk, if needs be, of temporary disaster. In the end we must triumph.

Let not the counsels of men in their dotage, nor the vaporings of a sensation press which roars and bawls with courageous plainness on points on which all *agree*, but whose meaning is nicely balanced that it may dip either way on points where there is a difference, affect any true man or swerve him from the clear path of honor and duty. Rally round the flag, as in days now past, with a renewed determination that the good cause shall triumph, that he is faithful, tried and known friends alone shall be honored with your confidence, and an intelligent constituency will ratify by an old-fashioned majority the action of the Convention at the polls.

A REPUBLICAN NOT SO "OLD."

EDITORS GAZETTE:—A statement having been made in one of the morning newspapers that the Hon. Alfred Slack, of Allegheny, had failed to secure a single delegate from that city in favor of his re-nomination, I beg permission to state that at least seven, or a majority of all the delegates from Allegheny, will vote in Convention for him.

A DELEGATE.

—News from the interior of Georgia represents everything pertaining to farming interests as having been nearly ruined by the heavy rains. The wheat crop is a failure on account of rust. Great destitution prevails, and hundreds of families are destitute of food. Crops in Tennessee are backward. Wheat will be about a half crop. Corn and cotton look promising.

—A notorious scoundrel and highwayman, named Frank Borden, who recently assaulted and robbed Francis H. Kales, a prominent lawyer of Chicago, has been tried, convicted, and sentenced to twelve years' imprisonment at Joliet.

—Dr. Henry T. Bowditch, of Boston, has been fined $1,000 for branding a soldier with the letter D, [deserter] when he was acting as examining Surgeon of the office of the Provost Marshal.

POSTPONEMENT.

THE UNITED STATES
PRIZE CONCERT,
TO HAVE BEEN GIVEN AT
Crosby's Opera House, Chicago,
MAY 28th, 1866,
Will be postponed until
Monday, July 9th, '66,
On which occasion
HALF A MILLION DOLLARS IN PRIZES
Will be presented to Ticket Holders, including
$100,000 IN GREENBACKS.

The postponement is an unavoidable necessity, (not so much in consequence of the number of tickets yet unsold) as the positive necessity there is for the proper registration of those already disposed of, which has been delayed in consequence of the negligence and carelessness of a portion of our Agents in making their proper returns.

We advise all parties wanting tickets to send for them without delay, as we have but a limited number yet on hand. We wish most particularly to impress upon the minds of our Agents the importance of their making their returns at once, and of rectifying whatever errors may have crept into their reports heretofore. We will say to those sending for tickets, that if they should all be sold at the time their order is received, the money will be returned.

No applications for new agencies for the sale of tickets will be considered, as we have no more than sufficient tickets to supply those Agents we have already appointed. Tickets are for sale at the principal hotels, book and music stores in the city, and at our office, 133 Dearborn street; price $1.00 each; sent by mail on receipt of price and stamp for return postage.

We invite the particular attention of persons wishing to order tickets by mail to the following

SPECIAL TERMS OR CLUB RATES:

Any party procuring a club of 5 or more names for tickets, and forwarding us money for the same, will be allowed the following commission, viz:

WE WILL SEND

5 Tickets to one address for	$4 50
10 " "	9 00
20 " "	17 50
30 " "	26 25
40 " "	35 00
50 " "	43 50
100 " "	85 00

In every case send the name and Postoffice address of each separate subscriber.

Money by draft, Postoffice order, Express, or in Registered Letters, may be sent at our risk.

All communications should be addressed to
WIGGINS, BRADFORD & CO.,
133 DEARBORN STREET,
CHICAGO, ILL.

The proprietors will donate to the Lincoln and Douglas Monument Funds $2,000; also, there will be $2,000 reserved from the person drawing the $30,000 prize, for the same purpose.

SAVE THYSELF.
A CURE FOR INTEMPERANCE.
Dr. S. Cutter's Celebrated Stomach Bitters,

The greatest Nervine ever discovered. The addition, within the last ten years, of Dr. Cutter's Nervine Discovery to the English Bitters, makes it a perfect antidote to intemperance. Previous to his discovery of the Nervine, this medicine was before the English public, celebrated as a Tonic and Alterative, in diseases of the Stomach and of the Bowels, and diseases arising from impurities of the blood. As a nervine it is always the choice of the Stomach. In all persons addicted to the use of stimulants and narcotics, such as alcohol and malt liquors, opium, morphia, arsenic, tobacco, &c., as it removes the morbid appetite, or craving of the stomach for stimulant; in Headache, Neuralgia, and all nervous diseases, it has no equal as a Nervine.

Ten years use of the improved English Bitters in St. Bartholomew's Hospital, St. Mary's Hospital, Newgate and other prisons, has established its reputation as a cure for intemperance, and gained for it the approval of the attending surgeons in all the hospitals and prisons throughout Great Britain, and is prescribed now by many physicians in private practice, for persons addicted to the use of stimulants and sedatives. In Paralysis, St. Vitus' Dance, Epileptic Fits, Nervous Twitchings, and all Nervous diseases, it has no equal. Wholesale and Retail Agent,

A. TORRENCE,

Confirmations by the U. S. Senate.

We are pleased to observe that the following named officers (citizens of Elizabeth, Pa.,) have been promoted by the War Department for gallant and meritorious services during the late war, and confirmed by the Senate of the United States, viz.:

First Lieut. Charles Oliver, 100th P. V., to be Captain by brevet, from March 13, 1865.

First Lieut. Joseph R. McQuade, same regiment, to be Captain by brevet from same date.

Second Lieut. William Oliver, same regiment, to be First Lieutenant by brevet from same date.

Second Lieut. John C. Dougherty, same regiment, to be First Lieutenant by brevet from same date.

Larceny as Bailee.—Thomas Regan yesterday appeared before Alderman Lynch and charged Thomas Morgan, the proprietor of a boarding-house in the Fifth ward, with larceny as bailee. It appears that Regan was committed a short time since to the County Jail for felonious assault and battery, and during the period of his incarceration he left his trunk at the house of the accused for safe keeping. Subsequently, he discovered that Morgan had sold the contents of the trunk and appropriated the money to his own use. A warrant was issued for the arrest of Morgan.

Prosecuted for Attempted Escape.—The warden of the county jail, Mr. W. J. White, yesterday appeared before Alderman Strain and instituted proceedings against William Herman, *alias* Rufus Conner, for an attempt to break jail. Conner is confined in jail on a charge of robbing Douglas' hat store, on Wood street, some time in March last. It is alleged that in the month of April he attempted to break jail by removing a flagstone in his cell, and attempted other measures towards freeing himself. A commitment was lodged against the accused.

"My Policy" in Sharpsburg.—At the election in Sharpsburg, on Saturday, for delegates to the Union Republican County Convention, Messrs. J. R. Butterfield and R. E. Roach, entered the lists, as avowed endorsers of President Johnson's "policy," against Messrs. J. G. Comstock and M. A. Bennett, Union Republicans. The result was:

M. A. Bennett	51	J. R. Butterfield	5
J. G. Comstock	49	R. E. Roach	4

Mr. J. A. Taylor, who "ran on his own hook," received nine votes.

Larceny of a Clown's Suit.—Henry A. Gardiner, one of the clowns attached to Mike Lipman's Circus, yesterday appeared before Alderman Humbert and preferred a charge of larceny against David Porter. Gardiner alleges that the accused stole a suit of jester's clothing from his bed room at the Stewell House on St. Clair street. Porter was arrested and in default of bail was committed to jail to await trial at the next session of the Criminal Court.

Smash Up.—A horse attached to a light sulky took fright yesterday on Penn street, near Central Park, and ran off. At the corner of Denny's Lane the vehicle came in contact with a tree box and was shattered to fragments, the shock of the concussion knocking the horse down, injuring him severely. Mr. Rollins, the owner of the team, succeeded in leaping from his seat when the horse started, and therefore escaped injury.

Will Have a Hearing.—Jane Morrison, charged with keeping a bawdy house at the "Pastime" Saloon on Liberty street, will have a hearing to-day at Alderman Taylor's office, in the Fifth ward. Mary Ackerman, the woman who made the information against Jane, has mysteriously disappeared, and up to the present time Officer Bell's efforts to ferret her out have proved ineffectual.

Congressional Convention.—The Congressional delegates elected in the districts of the county lying in the 23d District, will meet in Convention to-day, at ten o'clock, in City Hall, Allegheny city, for the purpose of nominating a candidate in said district. There will be no opposition, we believe, offered to Mr. Williams, the present Representative.

Row in the Fifth Ward.—Yesterday afternoon about three o'clock a fight took place at a beer saloon kept by a man named Weiss, No. 445 Penn street. The belligerents were all under the influence of some spiritual beverage. Officer James A. Bell, of Alderman Taylor's office, appeared on the ground and put an end to the row. No arrests were made.

Dr. W. W. White, formerly of Wellsburg, West Virginia, has located in Allegheny city, with an office on Church avenue, one door from Federal street. Dr. White comes eminently recommended to his new field, and is a gentleman of the highest standing as a physician and skilful surgeon.

Refused.—Messrs. Marshall and Collier, in the U. S. District Court, yesterday made an application for the reduction of the bail in the case of David Shaffer, accused of dealing in counterfeit money. The application was refused by Judge McCandless. Bail in the sum of $5,000 is required.

Congressional Delegates.—In Sharpsburg, on Saturday, Messrs. J. Covode and J. C. Lewis were elected without opposition as delegates to the Union Republican Congressional Convention of the twenty-third district.

An Error.—Mr. George Sahfuss is the delegate elect with Mr. D. B. Ferguson, from Mt. Washington borough, instead of Mr. Jacob Wilbert, as reported.

OUR EARLY TELEGRAMS.

JEFF. DAVIS' TRIAL POSTPONED

National Bank Circulation.

EXPENSES INCURRED IN RAISING TROOPS.

The Merchants' National Bank.

NEW YORK, May 28.—The morning papers have the following dispatches: It is now considered certain that the trial of Jeff. Davis will be postponed until the November term of the Richmond Courts. It is also quite probable that the indictment will be altered and other presentments will be made at the suggestion of the Attorney General, who conducts the prosecution. James T. Brady, of New York, is now known to be retained as counsel in the case of Davis, and is at Fortress Monroe in daily consultation with him, together with O'Connor and Shea. The counsel have agreed to demand an immediate trial at the June Court, or if a postponement is insisted upon they will demand that their client be released upon bail, which he is ready to give to the amount of ten million dollars if necessary.

The last exhibit for the Comptroller of the Currency shows that there are one thousand six hundred and fifty National Banks, with an aggregate circulation amounting to two hundred and seventy-six millions, five hundred and forty thousand, five hundred and ten dollars, which is secured by bonds held by the United States Treasurer, estimated at three hundred and twenty-four millions, three hundred and sixty-four thousand, three hundred and fifty dollars. The total capital is, four hundred and fourteen millions, nine hundred and twenty-one thousand, four hundred and seventy-nine dollars. Of these banks nearly four hundred are National depositories for the reception of Government funds. As security for such funds the amount held by the Department is thirty-six millions, seven hundred and seventy-six thousand five hundred dollars.

The regulations of the Treasury Department in regard to the settlement of claims of States for reimbursements of expenses incurred by them in raising troops, have been so amended as to allow in proper cases for the transportation of the men by wagons, an important matter to many of the Western States, where railroads were scarce, and the State authorities compelled to transport volunteers and drafted men to distant rendezvous by wagons, stage coaches and private conveyances.

The Comptroller of the Currency gives notice to all persons who have claims against the Merchants' National Bank, that they must present the same and make legal proof thereof to James C. Kennedy, receiver of said bank, at Washington, D. C., on or before the 26th day of August next.

French Troops Going Home.

NEW YORK, May 28.—The *Courier* declares itself enabled to state that the French Government has signed a treaty with the Trans-Atlantic Packet Company to embark and carry back to France the whole French expeditionary force in Mexico within the time agreed upon.

HUMOROUS ITEMS.

A young man in Newport, Vt., wanted a wife badly and took a young lady out to ride. After proceeding a few miles he asked her, "Will you marry me?" The answer was as short as it was sweet: "No sir!" Young gent says: "Well, get out, and go home afoot then." The young lady accepted his advice and reached home in safety.

"FRANK," said an affectionate mother the other day to a promising boy, "if you don't stop smoking and reading so much, you will get so after a while that you won't care anything about work." "Mother," replied the hopeful, leisurely removing a very long cigar, and turning another leaf, "I have got so now."

A London cabman said: "If you run over a youngster down here, the folks don't say nothin, kase they have got more children and no wittles for 'em; but you jist run over a goat or a kid, or a sow or a pig, and I'm blest if a mob ain't arter you in two minits!"

AN honest Hibernian, trundling along a handcart containing all his valuables, was accosted thus: "Well, Patrick, you are moving again, I see?" "Faith I am," he replied, "for the times are so hard it's a dale cheaper hiring handcarts than paying rints."

THE Gold Hill (Nevada) *News* thus sums up the "latest" from a neighboring city: "All quiet down at Silver City; not a cow-hiding scrape for a week, plenty of mines, but they need developing."

A very volatile young lord, whose faults were numberless, at last married. "Now, my lord," said his wife, "I hope you'll mend." "Madam," said he, "this is my last folly."

I always sing to please myself, said a gentleman, who was humming a tune in company. "Then you are not at all difficult to please," said a lady who sat next to him.

IN Cork, Ireland, a short time ago, the crier, of the court endeavored to suppress the crowd, by exclaiming, "All ye blackguards that isn't lawyers, lave the court."

A correspondent in Havana writes that if he wanted to describe the Island of Cuba in a single line, he should call it "the land of the flea and the home of the slave."

A lady was asked the other day why she chose to live a single life. She replied, Because I am not able to support a husband.

How about the Fenian expedition down in Maine, Patrick?" "Och, indade, sir, and I think it's a *mane* fizzle altogether!"

A child thus defines the word gossip: "It's when nobody don't know nothing, and somebody goes and tells of it."

NOTICE.

OFFICE UNITED STATES PRIZE CONCERT,
WIGGINS, BRADFORD & CO., Proprietors.

WE WOULD MOST RESPECTFULLY announce that in consideration of the following cogent and we trust satisfactory reasons, we have finally concluded that a postponement would be equally advantageous to the public and ourselves, namely, that we prefer to

Dispose of all the Tickets and give the Public all the Prizes,

than to hold a quantity of tickets (as proprietors usually do) and thereby enhance our chances of drawing the large prizes.

The drawn numbers will be published in the Chicago daily papers as soon as drawn, and when the drawing is over each agent will be furnished with a complete list of the drawn numbers.

In view of the above reasons, which we hope will prove eminently satisfactory.

FINANCE AND TRADE.

MONDAY, May 28, 1866.

The favorable tenor of the news by the Saxonia, to the effect that the excitement in financial circles in England was subsiding, and the slight advance in our bonds here, has caused a sharp rise in the market value of government securities, and a corresponding decline in the premium on gold. Mr. P. R. Mertz's New York quotations to-day, were as follows: Gold, 137¾; 1881's, 108¾; 5-20's, 102; 7-30's, 101¾.

Bank stocks are not so much inquired for since the lower rates of government bonds offer more profitable investments. Insurance stocks are very dull, being unsaleable even at a sacrafice. County and City bonds are more in request since the interest on these securities is always promptly paid, and a contingent fund provided (especially for the county bonds) for the ultimate extinction of the debt. Besides, the time of maturity extends so far back, that the principal, no doubt, will be paid in gold.

Railroad stocks are quiet, and without material change. Steubenville is quoted at 3½; Connellsville, 9½; Allegheny Valley, 12; Allegheny County Compromise Bonds, 74; City Bonds, 70. Oil shares dull, the demand being restricted almost entirely to Columbia, which is saleable at 1s to 1s½, though holders, generally, are asking 19½@20.

The following statement exhibits the business of the Pittsburgh Clearing House for the week closing on Saturday, May 26th:

—The New York *Times*, of May 26th, says:

Since the beginning of May, the aggregate export is *twenty two millions of dollars*, which, assuming that the whole has been supplied out of the United States, to be deducted from from the balances held on the 1st of May, would still leave the large sum of *fifty-four millions* available for export through the summer months if required. Of this sum, about *twenty two millions* belong to the holders of gold notes or certificates of deposit, *and thirty-two millions to the Treasury of the United States.* The following figures, we have reason to say, may be relied upon as closely reflecting the Treasury gold movement since the 1st of May, including all the offices:

Gold in Treasury, May 1, 1866........ $ 76,676,000
Increase of deposits for gold notes.. 13,500,000
Received for customs at
New York.................. $9,306,000
And at the out ports.......... 3,102,000—12,408,000

Total in gross.......................$102,584,000
Interest paid since May 1 at
New York.................. $12,114,000
And at all other offices......... 3,500,000

Together.................... $15,614,000
Sales of gold since May 1,
approximated........... 32,500,000—48,114,000

Balances in Treasury May 27........... $54,470,000

—We once in a while meet with financial statements illustrative of the generally collapsed state of the various monetary institutions of the South. The condition of the affairs of the Bank of Virginia has just been made public. The assets of this bank consists of Confederate bonds and stocks to the amount of $3,216,119, and $157,098 of coin. Among its liabilities are—capital stock, $2,653,290, and $4,152,354 due depositors.

—The present debt of the United States is proportionately larger than that of any of the countries of Europe, and is only exceeded in amount by that of the United Kingdom. Great Britain has never raised, in any one year, a *revenue* greater than 375 millions; the United States is, at the present time, raising money by direct and indirect taxation, at the rate of 540 millions a year.

—The crash of financial houses in England echoes to our own shores, and if we are wise we will profit by the warnings which those disasters furnish us. Great Britain finds her people in difficulty from the results of over speculation. Having plenty of capital to spare, they have gone into these projects wildly, and perhaps they might have prospered had it not been for the prospects of a great European war. Fear of that calamity has brought down every unsubstantial experiment, and the failures already announced are immense. We must feel the effects of this disaster in this country to some extent, but if we have been as careful since the conclusion of the rebellion as we were before, we will not be greatly affected by it. The drain of gold to England during the last three weeks has been very great, but the large proportion of the remittances have been realized by the resale of United States securities sent from abroad, and has been paid for out of amounts saved, and independent of the exigencies of business. Nevertheless there has probably been more importation than the necessities of the country required, but this indebtedness has been mostly settled, and to answer accruing demands it may be assumed that we shall be ready. Still the situation is very interesting, and it behooves every one in business to act with caution, and do nothing rashly.—*Phila. Com. List.*

New York Stock and Money Market.

NEW YORK, May 28.—The *Post's* money article says the loan market is moderately active at 6@7 ₩ cent. The stock market is irregular. Governments are better and Railroad Shares active, except Erie, which is the weakest on the list. The Bank Statement is less unfavorable than was anticipated. The sale of thirty millions of Government gold has caused an increase of the specie reserve of the banks to the extent of more than six million dollars. The deposits have correspondingly declined nearly eight and one-half millions, while the Legal Tenders have declined nearly twelve millions, and the Loans have inceased more than two millions.

After Board Central was quoted at 86¾; Erie at 76¾; Michigan Southern at 79¾; Cleveland & Pittsburgh, 94¼; Northwestern, 28½; Northwestern preferred, 5[illegible]; Fort Wayne, 98[illegible].

At one o'clock call, the market was dull and Erie was depressed to 65[illegible]@65¼, which is three per cent. lower than the last London quotations. Later, Erie sold at 65⅞, Western Union at 62, Atlantic Mail 126.

Foreign Exchange quiet, but firm.

Gold, 137¾. Sixes of 81, Coupons, 108¾; 5-20's Coupons 1862, 102; do. 1864, 102½; 10-40's Coupons, 96; 7-30's, 1st series, 102¾; do., 2d series, 102¾; do., 3d series, 102¾.

The *Commercial* says the effect of the money disturbances this week is rapidly subsiding. This morning there is none of the pressure for money which characterized last week, but, on the contrary, lenders are seeking borrowers. Large sums have been offered at 6 per cent on Government collaterals, but the general rate is 7 per cent., though with a very apparent tendency towards 6. The disbursements of the Sub-Treasury during the week in the redemption of certificates of indebtedness are likely to put the market in an easier condition than it was fourteen days ago.

The bank statement shows a decrease of deposits amounting to $8,449,824. As, however, there is an increase in specie deposits of $6,141,464, it would appear that the decrease in deposits, other than of specie, is $14,591,288. The decrease in legal tenders is $11,880,160, which must be regarded as a large loss, considering that so much of the payments to the Sub-Treasury have been made in temporary loan, certificates of indebtedness and national bank currency. Loans show an increase of $2,279,130, and circulation an addition of $1,034,093. Legal tender reserve has not been for some time drawn down so close, but it is still $9,845,000 in excess of the legal requirement. Discounts are rather more active. Banks and private bankers show more disposition to take paper at the present high rates, which has the effect of reducing, for the moment, the supply on call loans. Prime names for sixty and ninety days are current at 6½@7 per cent., with rare exceptions at 6 per cent.

Stocks are again buoyant, the condition of certain stocks being a chief element of the prevailing great strength of prices. At the morning board, the principal feature was the apparent culmination of a corner in Cleveland and Pittsburgh. There was an active demand for cash stock from the shorts, among whom a speculative director in Erie is said to be numbered. The prices closed at 94¾ for regular, and strong predictions are made that it will touch par. Wall street is considerably mystified about Erie. The prevailing idea is that a party is manipulating it for a rise. The stock is undoubtedly very largely oversold; the price declined 7¾, closing at 67¼. Nearly every stock on the list is more or less under speculative manipulation, and in every case for higher figures.

Governments are active and firmer throughout. Government brokers have advanced their quotations materially on old 5-20s and 7-30s; 5-20s of 1862 are ⅜c better, and 7-30s ¼@⅜c. 10-40s rose ⅜c, closing at 95⅞. The Gold market is weaker. There is less demand for exports; speculators for a rise are disappointed at the amount of 5-20s and Erie shares returned by the City of Boston, the amount being apparently unimportant. Foreign Exchange opens quiet. There is a moderate demand for sterling sight bills, and merchants are at present very limited buyers, being disposed to take the chances of lower premium on gold and an easier market.

The *Express* says the sharp decline in Erie is based upon a report, of a call for a special meeting of directors to-morrow. There are rumors of troubles and an over-issue is darkly hinted. There was increased activity in petroleum and mining shares to-day, with a general advance in prices. The upward movement was very decided in United States and Pithole Creek, Petroleum and Rocky Mountain gold.

There is considerable agitation in petroleum circles about casing wells that have stopped producing. It is claimed that they can be made to produce again by this operation, and should the experiment prove successful, it will tend to revive the petroleum interest to a great extent. The United States Company is now endeavoring to raise money to commence operations. United States, 50c; Bennehoff Run, 1250; Central, 270; Pithole Creek, 590; Buchanan Farm, 39; Excelsior, 54. Mining Stocks—Benton, 135; Cons Grey, Gold, 125; Holman Gold, 34; Rocky Mountain, 14.

WEEKLY BANK STATEMENT.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, }
MONDAY, May 28, 1866. }

The produce markets were rather quiet to-day, being entirely devoid of excitement, and while there is a continued fair local demand for most of the leading commodities, prices have undergone little or no change. There is no estimating the value the recent rains have been to the coming crops, and we are of the opinion that frequent showers and warm sunshine will go farther towards breaking down the present high prices of Flour and Wheat than anything else.

GRAIN—Sale of 5 cars Club Wheat at $2,15; and 2 do do at $2,20. Oats firm but unchanged; sale of 2 cars, in elevator, at 55; and small sales from store at 60@65. Corn is quiet but firm, with sales on track at 80 to 85. Rye is still quoted firm at $1. Barley is in demand and choice Spring would command $1.

FLOUR—Is steady with a continued fair local demand, and we can report regular sales from store at $10,75 to $11,25 for Spring Wheat, family; $11,50@11,75 for half Spring and half Winter; and $12@13 for Winter Wheat brands. Rye Flour is selling at $6,50@6,75.

PROVISIONS—Bacon is steady at 14½c for Shoulders; 17 for Ribbed Sides; 21½ for Plain Sugar Cured Hams, and 23 for Canvassed do. Lard is selling at 20 to 21 for country, and 22½@23 for city. Nothing doing in Mess Pork.

POTATOES—Dull but unchanged. Sales from store at $1,25 to $1,35 per bush, and $3,50 to $3,75 per bbl, as to quality.

BUTTER—Is quiet and unchanged, with a supply somewhat in excess of the demand. Sales at 20 to 25 for common to strictly prime Roll.

EGGS—Steady and in good demand, and fresh packed sell readily at 22@23.

CHEESE—Is dull but unchanged at 16 to 18, for Western Reserve.

BUCKWHEAT—Is a little dull, the supply being considerably in excess of the demand. Sales at $2,50 per bush.

HAY—Is not coming in very freely, and with a fair demand, prices have advanced to $25 to $30 per ton, as to quality.

SALT—The demand is improving, but prices remain unchanged at $2,40, by the car load.

SORGHUM—Is dull; sales of prime at 55@60.

SEEDS—Flaxseed is in wanted at $2,65.

BEANS—Sales York State at $2 per bush.

HOMINY—Small sales at 3½@4.

OIL—Sales of No. 1 Lard at $1,85@1,85.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, }
MONDAY, May 28, 1866. }

CRUDE—The week does not open very auspiciously for the oil business, if to-day can be taken as a "specimen brick." There was not a single operation in either Crude or Refined, for present or future delivery, and the market may be fairly termed dull and depressed, and prices are tending downward. Crude may be quoted nominally at 14@15, bbls returned, and 19@20, bbls included; and it is possible that buyers could pick several small lots at the inside quotations. As we have repeatedly stated, within the last few days, there is but comparatively little oil in this market at present, aside from that in the hands of speculators, and quite a number of our crude men have contracts to fill, and cannot get the oil here to fill them.

REFINED—There was but very little inquiry for bonded oil to-day, and the market, owing to very unfavorable advices from the East, was very dull, and large export orders, it is said, have been withdrawn for the present—possibly for effect in order to break down prices. The dullness both here and in the east may be attributed to the adverse character of the late foreign advices, and no material improvement can reasonably be expected in the trade in this country until the European markets show more signs of life and animation. There was not a single operation to-day that we could hear of, and as the market is irregular and unsettled, we omit quotations. We are congnizant of a lot of free oil having been offered at 54 cents and declined.

—Since writing the above we have the following sales reported: 500 bbls for September, buyers option, at 40, free on board cars here, and 500 for October, at 41, f. o. b.

ARRIVALS—There have been but two arrivals of oil by the Allegheny River since our last report, 361 bbls for Fisher & Bro., and 211 for Haldeman & Co.,—total, 572 barrels.

Boston Wool Market.

BOSTON, May 26.—The wool market is steady and firm, with a continued good demand for seasonable consumption. The price of the staple is relatively so low, as compared with other kinds of domestic produce, that manufacturers have little hesitation in taking all they are likely to want for several months ahead at current rates. Hence, the balance of stocks held here is already reduced to a very small compass, and rapidly going into consumption. From present appearances, and at the average rate of weekly sales, the supply of old wool will be entirely closed out by the time the new clip becomes avaible, and perhaps before.

Sales of domestic for the week foot up some 70,000 pounds, at about the previous range of 65@75c for fleece, and 40@65c for the various grades of pulled. The transactions have been mostly in small and moderate sized lots, including common and fine western fleece at 45@55c; Indiana and Michigan at 50@60c; New York and Vermont at 50@65c; Ohio at 55@65c for medium and fine; Pennsylvania and Virginia do at 60@67c; and several lots of choice, double extra and picklock do do at 68@75c. In Texas, sales 10,000 lbs at 30c. In California, sales 37,000 lbs at 25c, 40,000 do good at 31@35c; and 10,000 do—a choice lot of the spring clip, just received and but thirty days en route,—at 35@40c. In Canada, sales 5000 lbs combing at 55c. In foreign, the sales have been moderate, but at full prices, including small lots of Cape at 35@42c, and Mestiza at 25@38c.—*Bulletin.*

Boston Fish Market.

BOSTON, May 26.—Mackerel are very scarce and in demand, and prices have further advanced. The stocks are about sold out of first hands, and only small lots are to be had. The new catch of No. 3s are now daily expected to make their appearance, and at present rates will pay fishermen a handsome profit. We note small sales of Bay No. 1 at $19,50@20; No. 2 at $18,50@19; No. 3 are nominal at $15@15,50; shore No 1 are very scarce at $22,50@23 per bbl cash. Alewives are scarce and firm at $8 per bbl. Pickled Herring are firmer at $2,50@8,50 per bbl for common and Labrador. Smoked Herring are selling at 50@60c per box for No. 1 and scaled. Salmon are held at $50 per tierce.—*Bulletin.*

Potatoes in New York.

NEW YORK, May 28.—Potatoes are coming in in large quantities from Michigan, whence we very seldom receive any, excepting as now, when prices have advanced to an unusual point—the last received from there, of any moment, previously, was in 1861, and prices declined to almost nothing before they were disposed of—now however, they are in a better position, the season being late, and the old crop hereabouts nearly exhausted, they bring $3@3,75 per bbl.—*Com. List.*

Philadelphia Seed Market.

PHILADELPHIA, May 26.—About 300 bushels Cloverseed sold at $5@5,75. In Timothy no transactions have been reported. It is worth $5@5,50. Flaxseed is in fair demand, but very scarce, and is taken on arrival by the crushers at $2,80@3. The failure of the crop of seed in the West last year is now being felt. 6000 bags and 300 pockets Calcutta Linseed sold in Boston, cargo of "Cromwell," at $2,80 gold. There is now but 1500 bags left in first hands in the country.

RIVER NEWS.

The river rose several inches at this point during Sunday night and yesterday forenoon, but last evening it was, apparently at a stand with about thirty-two inches in the channel by the pier marks. The weather yesterday was cloudy and cool with indications of more rain.

The Jas. L. Graham, from Smith's Ferry, and the Urilda, from Parkersburg, are the only arrivals we have to report from below. The latter boat cleared again about noon. The Chieftan and Fayette are both due here from Brownsville this morning, and both will leave again this evening, at 5 o'clock.

A dispatch from Oil City to-day announces that the well recently tapped at Pithole, and belonging to the "Marine Oil Company," has increased from thirty to ninety barrels per day. The Marine Co. is composed almost entirely of steamboatmen, and Capt. John Wolfe is superintendent.

The Fayette, Capt. M. A. Cox, will leave for Brownsville and Geneva this evening at five o'clock. Capt. Cox and his clerk Mr. Moorhouse, will see that passengers are well cared for. The Fayettee is the "old line boat."

The Chieftan, Capt. Abrams, belonging to the "Peoples Line," will also leave for the same points at the same hour. She has splendid accommodations for passengers, and is in charge of gentlemanly and experienced officers. Messrs. Mason and Davis are associated together in the office.

We learn from the officers of the Brownsville packets that considerable rain fell at the headwaters of that stream on Saturday night and Sunday, but not sufficiently, it is feared, to produce any marked effect in the river, and from what we can learn, the same remarks will apply to the Allegheny river.

We regret to learn that the recent fire at Brownsville destroyed the doors and a good deal of other finished work intended for the cabin of the new Peoples' Line steamer, Elector. The loss, of course, falls on the builder, but it will delay her completion considerably, and, her owners are very anxious to get her out.

The Cincinnati *Commercial* says that Capt. R. C. Gray, is the oldest steamboat commander now engaged in the business. He commanded the old low pressure steamer, Vesuvius, in 1826.

The Armenia and Kate Robinson were advertised to leave Cincinnati for Pittsburgh on Monday. The *Commercial*, of Sunday, says:

The Nora, Capt. H. H. Devinney, came in from Pittsburgh yesterday, with 300 tons in the boat and barge, having made a remarkably quick trip, considering the low water. She reports thirty-two inches on Glasshouse, and three feet scant in Buffington and Blannerhassett. The Nora reshipped her Memphis freight on the Anna, and Nashville freight on the Emperor. Captain C. A. Dravo came from Pittsburgh to Ironton on the Nora, and will arrive here to-day on the W. F. Curtis.

The Louisville *Courier*, of Saturday, says:

Two weeks, or half a moon, have passed without rain, save a slight sprinkle or two, and a good dash of rain is very much wanted for the farmers benefit as well as to improve navigation. The next change may bring an abundance of rain, and with it a good run of coal from Pittsburgh. The stock here is running low, with indications of an advance.

The towboat A. J. Baker came in from Memphis early yesterday with seven barges in tow empty of course, bound for Pittsburgh for another lot of coal.

The New Albany *Commercial*, of Saturday, is responsible for the following:

The old double rigged frigate Carondolet, formerly a U. S. gunboat of the Mississippi Squadron, passed up the other day, bound for the Atlantic Ocean by way of Pittsburgh, if she can be got over the Falls.

CHOLERA
DISARMED!!!
The Chief Cause of Pestilence Destroyed!

DR. E. COURTARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 265, 300 and 302 Henry Street, N. Y. Office, 42 Cedar Street.

This Company organized on a permanent basis, with Dr. Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter-houses, offal and fat-boiling establishments; all kinds of manure is *immensely* increasing the value of the latter to every farmer), and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They remove noxious gasses and odors by chemical principles—leaving in their places *healthful air*; they are *destroyers*, and *not merely absorbents* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others can be seen at the Company's office.

DELAVAN HOUSE, ALBANY, March 30, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors.

A case of five years' standing cured by DR. KEYSER'S PECTORAL SYRUP

PITTSBURGH, January 11, 1860.

DR. KEYSER:—My wife has been afflicted with it by cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought, the first time, a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself for a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this you desire to do.

WM. WILSON,
Alderman, Fifth Ward

PITTSBURGH, April 24, 1857.

READ THE TRUTH.—DR. KEYSER:—I have a daughter who has taken several medicines for a bad cough without benefit, among them Ayer's Cherry Pectoral. I purchased from you a bottle of your Pectoral Syrup, and before she had used half a bottle she was relieved. The second bottle cured entirely of her cough.

JOHN DARIN,
Robinson street, Allegheny.

PITTSBURGH, December 31.

A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP.—I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 4th of February last, and continued eight months. I employed the best physicians in the country, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup, which I did, and after I had taken one bottle I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think it should be known this valuable remedy will do for others what it has done in my case.

JOHN C. LITTLE,
Witness: R. M. KERR. Peebles township.

PATTON TOWNSHIP, April 14, 1858.

A WONDERFUL CURE.—Some time ago an old neighbor of mine was very ill with a bad cough which every one supposed to be consumption. His relatives told me that he had taken every remedy they heard of without benefit; his brother came to see him die, and all were confirmed in the belief that he could not live. I had about the third of a bottle of your Pectoral syrup, which I gave him, and it entirely cured him, to the astonishment of all. What makes the case more remarkable, is the extreme age of the man, he being about eighty years old. I have no doubt the Pectoral saved his life.

JOHN McGINNIS.

DR. KEYSER'S PECTORAL SYRUP IN BLAIRSVILLE.—Please send me another supply of your valuable Pectoral Syrup. Almost everybody around us has the cold, and are enquiring for "Dr. Keyser's Pectoral Syrup." We have sold sixteen bottles the last week, and are now entirely out. Mr. A. Alter and Mr. P. Maher, both of Blairsville, Pa., told us they would not be without it in their families. In fact, all who use it once want it again.

Yours, respectfully,
J. S. WATTERSON & SONS.

January 30, 1860.

PITTSBURGH, November 15, 1858.

DR. KEYSER:—Although not an advocate of Patent Medicines, in general, it affords me pleasure indescribable to recommend your PECTORAL SYRUP. As a medicine, it is well worthy the attention of any person who may in any manner be afflicted with coughs, colds and hoarseness of any kind, and for the peculiar qualifications for removing all that disagreeable sensation attending a severe cold.

I have been, more or less in my life, affected with the severest of colds and hoarseness. At times my throat would become so closed as to prevent my speaking above a whisper, and by taking a few doses of the above Syrup it would relieve me entirely.

In recommending this medicine, I must undoubtingly say that it is the best remedy I ever found, purporting to cure the above, nor should any family be without this remedy for diseases so prevalent.

Yours, most respectfully,
EDWARD J. JONES,
Cashier Citizens' Deposit Bank.

STEUBENVILLE, Ohio, March 14, 1865.

I have used Dr. Keyser's Cough Syrup for a bad cough of several years standing, and can cheerfully say it is the best medicine for the same that I have ever taken.

J. W. PRICE.

COL. PRATT AND DR. KEYSER'S PECTORAL SYRUP.—DR. KEYSER—Dear Sir: Excuse the delay of my acknowledging the excellence of your Pectoral Cough Syrup sooner. I take great pleasure in saying that it is all you say it is. It knocked the noise out of my cough, and the worst one I was ever afflicted with. I have not used more than one-half of the bottle, and I can and do wish that all who are afflicted would give it as fair a trial as I have done, and they will be proud to say, "It is no quack medicine," would not suffer another such an attack for any consideration, or at any cost. I am confident I can breathe more freely than I ever did. I shall always acknowledge a debt of gratitude for inventing so excellent a remedy. You are at liberty to use my name in this regard as you think proper.

E. F. PRATT.
Messenger Common Council, Pittsburgh, Pa.

N. B.—I am no stranger to my fellow-citizens, and all who entertain doubts can consult me personally.
E. F. P.

ANOTHER NEW CERTIFICATE.—DR. KEYSER'S PECTORAL SYRUP.—I had been troubled with a cough and cold for several weeks—so bad was it that I could not sleep. I had the advice and prescriptions from three of the best physicians in the city, whom I could name, but do not do so. I finally procured a bottle of your Pectoral Syrup, which cured me entirely.

(Signed) J. W. SIMONTON,
No. 246 Liberty street, Pittsburgh, Pa.
January 9th, 1860.

"STOP THAT COUGHING."—"How can I do it?" Go to Keyser's, on Wood street, and get a bottle of his Cough Pectoral, and if that don't cure you, your case must be desperate indeed!" This is a specimen of the colloquy one hears every day in cold-catching periods of the year. And we can, from actual experiment, cheerfully concur in the adviser's admonition as above, for we have tried the "Pectoral," in a most stubborn case, with entire success. Near two weeks ago we went to Pittsburgh, with one of the most distressing, contrary, mulish, unsubduable coughs we ever experienced since our advent upon this mundane sphere. We coughed steadily and laboriously for one whole week, in hopes of tiring it out, but it was no go. In fact, it seemed rather to have improved by practice, and to have acquired strength, potency and distressibility by the operation. In this stage of the siege, we coughed our way to Keyser's, No. 140 Wood street, procured a fifty cent bottle of the "Pectoral," took it according to directions, and in forty-eight hours we were master of the field, the enemy having unconditionally surrendered, after a brief, but unequal conflict with so formidable an adversary as Keyser's famous Cough Pectoral.—*Brownsville Clipper, Dec. 14, 1860.*
